- Site Development Plan for Subdivision

Addressed Conditions Of Approval Per D.R.B. Comments March 2, 2005:

1. The EPC delegates final sign-off authority of this site development plan to the Development Review Board (DRB). The DRB is responsible for ensuring that all EPC conditions have been satisfied and that other applicable City requirements have been met. A letter shall accompany the submittal, specifying all modifications that have been made to the site plan since the EPC hearing, including how the site plan has been modified to meet each of the EPC conditions. Unauthorized changes to the site plan, including before or after the DRB final sign-off, may result in forfeiture of the approvals.

2. General:

   Per E.P.C. comments and working with the case planner the Site Plan for Subdivision was "visually" cleaned up to read more ledgeably, and most importantly, to reveal the entire property line of Tract 5-A2. It was suggested by the case planner to put the Site for Subdivision Plan first in the submittal package rather than second. This changed the sheet numbers, Site Plan for Subdivision now being sheet AS.1 and Site plan for Building permit being AS. 2. consequently, since the request to show the entire property line of Tract 5-A2, the scale of the Site plan for Subdivision was changed from 1"=40' to 1"=60'.

   The Vicinity Map was changed to a zone map, actually depicting the zones, site uses, and just in general "simplifying" the site location map. There was also confusion with the legend actually corresponding with the information shown on the illustrative plan. This has been corrected and updated. More depiction of circulation was added to the plan to further clarify pedestrian and vehicle circulation in and around the site. Per T.I.S. comment the original drive isle and refuse were relocated to be directly across from Walgreen's existing drive isle. in conclusion to the changes made to the Site Plan For Subdivision the main purpose was to clean up, clarify and most importantly remove surrounding information that didn't apply to what the plan was trying to depict. Simply showing the two Tracts (5-A1-B & 5-A2) being consolidated into one and how access and circulation would work.

- Site Development Plan for Building Permit

Addressed Conditions Of Approval Per D.R.B. Comments March 2, 2005:

1. The EPC delegates final sign-off authority of this site development plan to the Development Review Board (DRB). The DRB is responsible for ensuring that all EPC conditions have been satisfied and that other applicable City requirements have been met. A letter shall accompany the submittal, specifying all modifications that have been made to the site plan since the EPC hearing, including how the site plan has been modified to meet each of the EPC conditions. Unauthorized changes to the site plan, including before or after the DRB final sign-off, may result in forfeiture of the approvals.

2. **Condition 2: General**:

   2a. The purpose of this condition is to clarify information that was confusing in the original submittal. The information provided on the legend does not correspond with the information shown on the illustrative site plan layout. The applicant also does not clarify how the site plan has been modified to meet each condition of approval. Lot 5-A-1-B is an existing lot. Lot 5-A2 is an existing lot. The applicant proposes to consolidate lot 5-A-1-B and 5-A2 to create one lot. This should be clearly indicated by both the legend and site plan layout on sheet AS.1

   Action Taken:

   2a. See explanation on addressed issues: Site Plan For Subdivision.

   2b. The Vicinity Map is an improvement from the last submittal. But there are names of streets (Montano Road) that are still difficult to identify on the map. It is difficult to tell the zoning that corresponds with the different parcels shown. This map may not be as helpful to someone who is not as familiar with the Project.

Action Taken:

2b. The vicinity map has been cleaned up and reflects in a simplified manner, site location, surrounding parcels, and crossroads. This map is a simplified version of the previous submitted one being that it is more clearly pointing out the site location.

2c. An existing 20' public drainage easement, as shown on the original submittal of sheet AS.2, is not shown on the revised sheet AS.2

Action Taken:

2c. The existing 20' public drainage easement that was shown on the original sheet AS.2 is now depicted on sheet AS.1 and AS.2 making them consistent per the comment.

3. **Condition 3: Walls/fences**

   a. The height, length, colors and materials for the proposed retaining wall shall be indicated.

   a. Action Taken: have provided a detail on sheet AS.2 showing the retaining wall, its structure, materiality etc. per (Section 14-16-3-19) This detail pertains to both the retaining wall and the screen wall that Is behind the shops bldg. to screen the service area.

   b. All walls shall be consistent with General Height and Design Regulations For Wall, Fences and Retaining wall (Section 14-16-3-19)

   b. Action Taken: followed the regulations per (14-16-3-19) the fence not being any higher that 6' from the public right of way have chosen materials That are compliment or "represent" materials used throughout the existing Montano Plaza.

   c. The location of the proposed retaining wall shall be indicated on the site Plan, sheet AS.1

   c. Action Taken: (per condition 3a) a retaining wall detail was generated Is shown on sheet AS.2, Along with where the detail is cut. This includes The retaining wall as well as the screening wall behind the shops bldg. (service area).

4. **Condition 4: Vehicular Access, Circulation and Parking:**

   a. Calculations have been updated to include the Checker portion of the building. The calculations appear to indicate that 154 spaces are required when in fact only 131 spaces are required. The amount provided and required should be clearly indicated on parking calculations. The parking

calculations for the bank building should also clearly differentiate the amount required and the amount provided.

a. **Action Taken:**The parking calculations have been updated to reflect a correction in required vs. provided. The indicated 154 spaces are provided while 131 spaces are required. The same correction has been applied to the bank building's parking, which is actually 25 spaces provided and 22 spaces provided.

b. Condition met (now correctly showing disabled parking widths as 8'-6 Rather than 8'-0")

5. **Condition 5: Pedestrian and Bicycle Access and Circulation, Transit Access**

   a. Not met. The pedestrian walkways within the parking area are still not Lined with adjacent shade trees spaced approximately 25-feet on center as specified in this condition.

   a. **Action Taken:** On revised sheet AS.2 and sheet L1 planters have been added every 25-feet on center to accommodate the pedestrian walkways with shade trees per this condition.

   b. A pedestrian connection shall be provided to the adjacent commercial uses To the west. The pedestrian connection shall be relocated to provide a More direct connection

   c. An existing public sidewalk next to Montano Road shall be indicated on The plan. The Zoning Code requires a pedestrian connection from the public sidewalk along Montano to the principal customer entrance of all Proposed buildings on the subject site (Section 14-16-3-1(G) (2).

   c. **Action Taken:** A 6' public sidewalk has been added to the south end of The shops building connecting to Winter Haven as well as being used as an additional pedestrian connection to the proposed buildings on the site.

Interoffice Memorandum

February 27, 2005

To: **Sheran Matson, Development Review Board**

CC: **Claire Senova**

From: **Elvira Lopez, Planning Department**

Subject: **DRB Project 1001770; Site Development Plan for Subdivision (04EPC 01722) and Site Development Plan for Building Permit (04EPC 01721)**

The applicant has met the Conditions of Approval for **Project 1001770/04EPC 01722**, a site development plan for subdivision, in the following manner:

Condition 1: The applicant has not submitted a letter specifying all modifications that have been made to the site plan since the EPC hearing. It appears that there have been significant changes to the original submittal and there is no letter to justify or explain these changes. The applicant also does not specify how the site plan has been modified to meet each condition of approval. The applicant should note that unauthorized changes to this site plan, including before or after DRB final sign-off may result in forfeiture of approvals.

Condition 2: Transportation Development and/or the Traffic Engineer should ensure that conditions 2a through 2l are met.

The applicant has met the Conditions of Approval for **Project 1001770/04EPC 01721**, a site development plan for building permit, in the following manner:

Condition 1: The applicant has not submitted a letter specifying all modifications that have been made to the site plan since the EPC hearing. It appears that there have been significant changes to the original submittal and there is no letter to justify or explain these changes. The applicant also does not specify how the site plan has been modified to meet each condition of approval.

Condition 2: General

2a. The purpose of this condition is to clarify information that was confusing in the original submittal. The information provided on the legend does not correspond with the information shown on the illustrative site plan layout. Lot 5-A1-B is an existing lot. Lot 5-A2- is an existing lot. The

applicant proposes to consolidate lot 5-A1-B and 5-A2 to create one lot. This should be clearly indicated by both the legend and site plan layout on sheet AS.1.
2b. The vicinity map is an improvement from the last submittal. But there are names of streets (Montano Road) that are still difficult to identify on the map. It is difficult to tell the zoning that corresponds with the different parcels shown. This map may not be as helpful to someone who is not as familiar with the project.
2c. An existing 20' public drainage easement, as shown on the original submittal of sheet AS.2, is not shown on the revised sheet AS.2.

Condition 3: Walls/Fences
3a: not met
3b: This is difficult for the planner to verify without the additional information required in Condition 3a.

Condition 4: Vehicular Access, Circulation and Parking
4a. Calculations have been updated to include the Checker portion of the building. The calculations appear to indicate that 156 spaces are required when in fact 131 spaces are required. The amount provided and required should be clearly indicated on parking calculations. The parking calculations for the bank building should also clearly differentiate the amount required and the amount provided.
4b. Condition met.

Condition 5: Pedestrian and Bicycle Access and Circulation, Transit Access
5a. Not met. The pedestrian walkways within the parking area are still not lined with adjacent shade trees spaced approximately 25-feet on center as specified in this condition.
5b. Not met. A part of this condition states that the pedestrian connection on the north side of the subject site should be shifted to provide a more direct connection to that retail building. This northern pedestrian sidewalk appears to be in the same location.
5c. The lines still do not clearly indicate how the existing sidewalk extends along Montano Rd. This is true for both the site plan for building permit (sheet AS.2) and Landscaping Plan (Sheet L1).

Condition 6: Lighting and Security
6a. The applicant should indicate how this condition is met.
6b. The applicant should indicate how this condition is met.

Condition 7: Landscaping
7a. This condition does not appear to have been met. The applicant should state how this condition is met.
7b. The applicant should state and explain how calculations have been changed to address this condition.
7C. The applicant should state and explain how calculations have been changed to address this condition.
7d. The applicant should state and explain how this condition has been met.
7e. The applicant should state and explain how this condition has been met.
7f. This condition does not appear to have been met. The width dimensions of landscape buffers still need to be provided in order for staff to verify that the zoning code standards are met.
7g. The applicant should explain how this condition has been met on the site plan.

7h. Condition does not appear to be met.
7i. The applicant should state how this condition has been met.
7j. Condition met
7k. Santa Fe Brown Gravel is still shown on the site plan and this is not an acceptable ground cover per the Coors Corridor Plan. The applicant should state how this condition has been met.

Condition 8: Public Outdoor Space
8a. Plan only indicates that 17 outdoor seating spaces are spread along the front façade. The design of this seating area is not specified per this condition.

Condition 9: Architecture and Signage
9a. The applicant should state and explain how this condition has been met. Particularly, the applicant should explain how the landscaping has been modified to address this condition.

Condition 10. Hydrology will verify that this condition is met.

Condition 11. SWMD has approved the submittal as indicated by a signature by Michael Holton.

Condition 12. Transportation Planning and/or the City Traffic Engineer will verify that these conditions are met.

In general, the applicant should explain and indicate any and all changes that have been made since the EPC approval of this plan on December 16, 2004. This includes an explanation as to why:

- Sheet AS.1 has significantly different information than the EPC approved submittal. The site development plan for subdivision is also drawn at a different scale.
- In the EPC approved plan, there were only two sheets for elevation drawings. Now there are four sheets. Please explain this difference.
- There appear to have been changes to the references with respect to cardinal directions (north, south, east, west) on the elevation drawings. If so, the applicant should confirm this and explain why this change has been made.
- There appear to have been changes to the architectural features proposed on buildings (e.g. windows on south elevation (in submitted plan) have been removed). The applicant should state all changes made to the proposed architecture and the reasons for such changes.

Note: Changes to EPC plan noted above do not necessarily indicate an inconsistency between EPC approved plan and DRB submittal. For staff to come to any conclusions about such changes, the applicant should explain why changes have been made in a letter submitted to the DRB as part of this application.

Re: Subdivision of Tract 5-A1-B1, Lands of Joel P. Taylor

Dear Mr. Cloud:

This is a request for subdivision of the existing Tract 5-A1-B1 into two tracts. The property fronts onto Montano Road between the existing Walgreens on the corner of Coors/Montano and Winterhaven Road. The site is zoned C-2 with a site plan that was approved by DRB several years ago, a copy of which is attached to this application. We have also recently obtained approval on an administrative amendment to add the proposed property line to the existing site plan for subdivision (attached to this application).

Utilities were stubbed out to the property when it was previously subdivided and there is an existing cross-lot access easement that overlaps this site and other properties within the adjoining shopping center which allows for universal vehicular access. Runoff is conveyed south into the existing public pond located along the south side of the property.

Please contact me if I can be of further assistance.

Sincerely,

MARK GOODWIN & ASSOCIATES, PA

Following is a summary of PUBLIC/PRIVATE Infrastructure required to be constructed or financially guaranteed for the above development. This Listing is not necessarily a complete listing. During the SIA process and/or in the review of the construction drawings, if the DRC Chair determines that appurtenant items and/or unforeseen items have not been included in the infrastructure listing, the DRC Chair may include those items in the listing and related financial guarantee. Likewise, if the DRC Chair determines that appurtenant or non-essential items can be deleted from the listing, those items may be deleted as well as the related portions of the financial guarantees. All such revisions require approval by the DRC Chair, the User Department and agent/owner. If such approvals are obtained, these revisions to the listing will be incorporated administratively. In addition, any unforeseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility will be required as a condition of project acceptance and close out by the City.

THIS AGREEMENT is made this 8th day of November, 2005, by and between the City of Albuquerque, New Mexico ("City"), a municipal corporation, whose address is P. O. Box 1293 (One Civic Plaza), Albuquerque, New Mexico 87103, and JPS, LLC ("Subdivider"), a [state the type of business entity, for instance, "New Mexico corporation," "general partnership," "joint venture," "individual," etc.:] New Mexico limited liability company, whose address is 7620 Jefferson NE, Albuquerque, NM 87109 whose telephone number is 878-0001, is made in Albuquerque, New Mexico, and is entered into as of the date of final execution of this Agreement.

1. Recital. The Subdivider is developing certain lands within the City of Albuquerque, Bernalillo County, New Mexico, known as [existing legal description:] SEE ATTACHED, recorded on _____ in the records of the Bernalillo County Clerk at Book _____, pages ____ through -- (the "Subdivision"). The Subdivider certifies that the Subdivision is owned by [state the name of the present real property owner exactly as shown on the real estate document conveying title in the Subdivision to the present owner:] JPS, LLC and Walgreens Hastings Co. ("Owner").

The Subdivider has submitted and the City has approved a preliminary plat or Site Development Plan identified as MONTAÑO RETAIL describing Subdivider's Property.

As a result of the development of the Subdivision, the Subdivision Ordinance ("S.O.") and/or the Zoning Code, Section 14-16-3-11, require the Subdivider, at no cost to the City, to install certain public and/or private Improvements, which are reasonably related to the development of the Subdivision, or to financially guarantee the construction of the public and/or private improvements as a prerequisite to approval of the final plat of, or the Site Development Plan for the Subdivision.

2. Improvements and Construction Deadline. The Subdivider agrees to install and complete the public and/or private improvements described Exhibit A, the required infrastructure listing ("Improvements"), to the satisfaction of the City, on or before the 15th of September 2006 ("Construction Completion Deadline"), at no cost to the City. The Improvements are shown in greater detail on the Subdivider's proposed and approved plans, which have been filed with the City Engineer and are identified as Project No. 767581.

Note: To compute the Construction Completion Deadline: If a final plat will be filed after Subdivider meets the requirements of this Agreement, the Construction Completion Deadline can be no later than two years after execution of this Agreement. (See Subdivision Ordinance Section 14-14-3.) If a final plat will not be filed pursuant to this Agreement, the Construction Completion Deadline can be no later than one year after approval of the preliminary plat by the Development Review Board ("DRB"), unless

Re: Montano Retail Center

Dear Ms. Matson:

We are submitting at this time the referenced project for minor subdivision, preliminary plat & final plat approval. The site is a currently undeveloped approximately 4 acre tract located at the NW corner of Winterhaven Rd. NW & Montano Blvd. NW. Current zoning for this site is C-2. The site is proposed to be developed into a retail/bank center.

With this platting action, a currently vacant parcel, immediately south, is being added to the site. The existing detention basin encumbering the original 4 acre parcel will be relocated to the south with this development. With that, this action also includes the vacation of the existing Public Drainage Easement from the original tract, and the creation of a new Public Drainage Easement on the new southerly portion. A new Public storm drain will be constructed with this project immediately west of the Winterhaven Rd. that will route Winterhaven storm flows to an existing box culvert located near the SW corner of the site.

Utility improvements associated with this project include a new water line extension from Winterhaven Rd. to the site, and sanitary sewer service connections to the main line located in Winterhaven.

We would be happy to answer any questions that DRB board members may have on this project prior to the scheduled hearing date.

Sincerely,

MARK GOODWIN & ASSOCIATES

ALTHOUGH YOU ARE NOT "OFFICIALLY REQUIRED" BY O-92,
you are most welcomed to notify the following *"Unrecognized"* neighborhood associations of this project.

LETTERS MUST BE SENT TO BOTH CONTACTS OF EACH NEIGHBORHOOD ASSOCIATION.

NOTICE TO APPLICANTS

SUGGESTED INFORMATION FOR NEIGHBORHOOD NOTIFICATION LETTERS

Applicants for Zone Change, Site Plan, Sector Development Plan approval or an amendment to a Sector Development Plan by the EPC, DRB, etc. are required under Council Bill O-92 to notify all affected recognized neighborhood associations **PRIOR TO FILING THE APPLICATION TO THE PLANNING DEPARTMENT.** Because the purpose of the notification is to ensure communication as a means of identifying and resolving problems early, it is essential that the notification be fully informative.

WE RECOMMEND THAT THE NOTIFICATION LETTER INCLUDE THE FOLLOWING INFORMATION:

1. The street address of the subject property.
2. The legal description of the property, including lot or tract number (if any), block number (if any), and name of the subdivision.
3. A physical description of the location, referenced to streets and existing land uses.
4. A complete description of the actions requested of the EPC:
   a) If a **ZONE CHANGE OR ANNEXATION**, the name of the existing zone category and primary uses and the name of the proposed category and primary uses (i.e., "from the R-T Townhouse zone, to the C-2 Community Commercial zone").
   b) If a **SITE DEVELOPMENT OR MASTER DEVELOPMENT PLAN** approval or amendment describe the physical nature of the proposal (i.e., "an amendment to the approved plan to allow a drive-through restaurant to be located just east of the main shopping center entrance off Montgomery Blvd.").
   c) If a **SECTOR DEVELOPMENT PLAN OR PLAN AMENDMENT** a general description of the plan area plan concept, the mix of zoning and land use categories proposed and description of major features such as location of significant shopping centers, employment centers, parks and other public facilities.
5. The name, address and telephone number of the applicant and of the agent (if any). In particular the name of an individual contact person will be helpful so that neighborhood associations may contact someone with questions or comments.

SIGN POSTING AGREEMENT

REQUIREMENTS

POSTING SIGNS ANNOUNCING PUBLIC HEARINGS

All persons making application to the City under the requirements and procedures established by the City Zoning Code or Subdivision Ordinance are responsible for the posting and maintaining of one or more signs on the property which the application describes. Vacations of public rights-of-way (if the way has been in use) also require signs. Waterproof signs are provided at the time of application. If the application is mailed, you must still stop at the Development Services Front Counter to pick up the sign.

The applicant is responsible for ensuring that the signs remain posted throughout the 15-day period prior to public hearing. Failure to maintain the signs during this entire period may be cause for deferral or denial of the application. Replacement signs for those lost or damaged are available from the Development Services Front Counter at a charge of $3.75 each.

1. LOCATION

   A. The sign shall be conspicuously located. It shall be located within twenty feet of the public sidewalk (or edge of public street). Staff may indicate a specific location.
   B. The face of the sign shall be parallel to the street, and the bottom of the sign shall be at least two feet from the ground.
   C. No barrier shall prevent a person from coming within five feet of the sign to read it.

2. NUMBER

   A. One sign shall be posted on each paved street frontage. Signs may be required on unpaved street frontages.
   B. If the land does not abut a public street, then, in addition to a sign placed on the property, a sign shall be placed on and at the edge of the public right-of-way of the nearest paved City street. Such a sign must direct readers toward the subject property by an arrow and an indication of distance.

3. PHYSICAL POSTING

   A. A heavy stake with two crossbars or a full plywood backing works best to keep the sign in place, especially during high winds.
   B. Large headed nails or staples are best for attaching signs to a post or backing; the sign tears out less easily.

4. TIME

Signs must be posted from August 9, 2005 To August 24, 2005

5. REMOVAL

   A. The sign is not to be removed before the initial hearing on the request.
   B. The sign should be removed within five (5) days after the initial hearing.

I have read this sheet and discussed it with the Development Services Front Counter Staff. I understand (A) my obligation to keep the sign(s) posted for (15) days and (B) where the sign(s) are to be located. I am being given a copy of this sheet.

Re: Montano Retail Drainage Report
Engineer's Stamp dated 1-27-05 (E12/D3E)

Dear Mr. Goodwin,

Based upon the information provided in your submittal dated 1-28-05, the above referenced report is approved for Building Permit. Please attach a copy of this approved plan to the construction sets prior to sign-off by Hydrology.

The existing pond is in a public drainage easement and must be vacated and rededicated to fit the new configuration. Plus, the new pond must be incorporated into your lot or a three-party maintenance agreement must be executed. This must be done prior to C.O.

Also, prior to Certificate of Occupancy release, Engineer Certification of the grading plan per the DPM checklist will be required.

If you have any questions, you can contact me at 924-3986.

Sincerely,

Bradley L. Bingham, PE
