Planning Department- DRB Minor Cases

Project #:1000111 Application #:18DRB-70097

Meeting Date: April 4, 2018

- The submitted plat does not have surveyor's signature which is required.
- Per sketch plat comments made January 24th – The entire bike trail easement should be shown. Also the note about the bike trail states "See Note 4" which refers to a 20' storm drainage and public utility easement?
- Per Sketch Plat comments – shared access and parking easement/agreement required prior to plat sign off.
- The note about solar has some writing on top that should be removed so it is legible.
