Hello Mr. Garcia,

I was able to look over the resubmittal for the project listed above. There are still some issues that are not addressed.

1. The dimensions of the ADA path and motor cycle parking are not shown on the TCL plan.
2. Provide refuse approval for the dumpster location. (They should have provided you with comments when the plan went through building permit. I was not able to pull up the building permit comments with the address.)

The lot lines on our GIS are not matching up with the property lines in the plan. Was the property replated?

The changes can be done as a redline or you can resubmit with the information updated on the TCL.
Let me know if you have any questions.
Thanks.
