(C-18)
PROPERTY OWNERS: GTA SAN PEDRO LLC
REQUEST: LOT CONSOLIDATION FOR 8 LOTS INTO 1 LOT

<u>04-07-2021</u>
San Pedro Dr NE is of a classification that requires street trees if new development is applicable pursuant to the IDO Section 5-6(B). Multi-family residential development is applicable, but single-family residential development is not applicable; so for townhomes, it depends on whether the lots will be subdivided and sold separately. The Parks and Recreation Department strongly prefers street landscaping for all developments.

<u>07-20-2022</u>
Thank you for street trees to meet the previous comment.

DEVELOPMENT REVIEW BOARD

The Fraxinus pennsylvanica 'Urbanite' / Urbanite Green Ash has lower drought and pest resistance in the Albuquerque Climate (confirmed by City Forester, Sean ONeill), and is not on the Official Plant Palette. Per IDO 5-6(C)(4)(b) "Only trees and shrubs selected from the Official Albuquerque Plant Palette of low water use, drought tolerant, or xeric species and shown on a landscape plan can count". The Nature Conservancy's New Mexico Climate Ready Tree List could also be consulted for alternative species. All other tree species on the subject plant palette are favorable replacements.

08-10-2022

Please revise the Urban Green Ash on the Plant Legend on the Landscape Plan of the Site Plan submittal as described in last comments. No comments for the requested re-plat.
