RE: ALLSUPS - HOMESTEAD CIRCLE DRAINAGE REPORT

Dear Chris:

The referenced drainage report is approved. Please see that copies of the revised plan are placed in the construction sets. Mr. Fred Aguirre will sign off for Hydrology when this is done.

Very truly yours,

Brian G. Burnett
Civil Engineer/Hydrology

RE: ALLSUPS - HOMESTEAD DRAINAGE REPORT

Dear Chris:

A review of the referenced report has resulted in the comments listed below. The numbers indicated refer to the Drainage Report (DR) and Construction Plan (CP) checklists.

1. Please provide the following information:

   a. DR # 4 - Delineation of site on pertinent Flood Hazard Boundary Map.

   b. DR # 10 - Discussion of off-site conditions and drainage facilities and their affect on the site drainage.

   c. DR # 13 - Calculations showing on-site undeveloped and developed flow volumes and rates.

   d. For sites less than one acre, this office requests that a pre-design conference be held to determine whether free discharge will be allowed. In areas where flooding occurs, this solution may not be appropriate.

   e. Please provide a completed Drainage Report Information Sheet.

If I can answer any questions concerning the above items, please call.

Very truly yours,

BGB
