Re: Office/Warehouse Ramirez Drywall Co.
4800 Hawkins, NE.

Dear Knight:

It has been brought to my attention, by the City Engineers office, that the overall drainage plan for the area of the above referenced project to be constructed is in question. As a result I was informed that until several items concerning this overall plan are addressed, no individual drainage studies will be approved for building permits.

Knight, please keep me informed as to your progress with the City Engineers office concerning this matter.

Sincerely,

Chuck P. Dodgen
