RECEIVED SEP 17 1984 HYDROLOGY SECTION

DATE SUBMITTED: 9/17/84

BY: Chris Searles for Schalk/Miller Arch.

* ref. reject at plan check 7/5/84 - SFC

Requesting reconsideration of Drainage Report requirement based on the following:

1.) The new structure is very small (693 sf.) generating very little runoff.

2.) The site is at present 100% paved, therefore the new structure does not alter the existing drainage pattern from the site.

Therefore we feel that the time and expence of a drainage report is unjustified in this case.
