Re: Grading and Drainage Plan for Lowell Elementary School
(L15-D5a)

Dear Billy:

Transmitted herewith is a copy of the revised Grading and Drainage Plan for the subject project. The revision that has taken place is that both finish floor elevations have been made equal and the grades of the hard surface in front of the buildings have been revised to accommodate that adjustment. Those are the only changes that have been made and therefore the drainage concept has not been altered.

If you have any questions or comments concerning this information, please do not hesitate to call.

Sincerely,
