Subject: FW: Hidden Valley Manhole Repair Proposal

Good Morning Dave,

Please see attached and below. I made a site visit and the cover does not appear to be in imminent danger of falling in, but it is in pretty rough shape and it looks like the MH top needs to be repaired/rebuilt anyway. Do we want to give Jon the go-ahead to order the frame and cover?

The work order cost would be \$6,225.82 with fees.

Thanks,

Adam C. Bergstrasser

Subject: Hidden Valley Manhole Repair Proposal

Adam,

Please see our attached proposal for Hidden Valley Manhole Repair. Please note that there is only one of these locking storm drain frame and covers in stock in Michigan and if we don't jump on this now, its 8-12 weeks lead time to get one manufactured. I also included a line item for having to potentially modify the existing manhole to accommodate a 7" tall frame. Since the existing cover is locked, we couldn't really see what the condition of the manhole was underneath so

my price is just a rough estimate of what might be needed. Price might need to be adjusted if we have to replace the manhole lid entirely, but we won't know that until we can get in there. Please review and let me know if you have any questions.

Thanks,

Jon Smith
