

Remove existing asphalt pavement and construct new circular traffic island with estate curb and 4" concrete. Adjust interior SAS MH to grade.

Roundabout with landscaping: \$185K - \$ 205K

1. Design: \$15K (required for determine if a truck apron is needed)
2. Concrete work: \$65K
3. Landscaping with irrigation: \$115 - \$125K (taken from Melissa R's cost estimate)
4. Landscaping without irrigation: \$105- \$115K (taken from Melissa R's cost estimate)
5. Additional time required for design of project: 6-12 months
6. Concerns:
 1. Manhole location will impact landscaping
 2. Truck apron may minimize the landscaping area.

Traffic circle at Cornell and Silver
