NOTE TO FILE #1003533

12/03/04

Jim Strozier, Richard Dourte, Richard Dineen, Leia ?, and I met this morning about the lot sizes in the Foraker Farms Subdivision scheduled for minor platting action at the 12/08/04 DRB meeting.

Most of the lots exceed the 6,000 square foot minimum lot size for R-1. However, one lot is 5774 square feet and 52 feet wide. We agreed, since there were other lots at 5,000 square feet or smaller in the adjacent area, this one lot could remain less than 6,000 square feet and less than 60 feet wide.

Following is a summary of PUBLIC/PRIVATE Infrastructure required to be constructed or financially guaranteed for the above development. This Listing is not necessarily a complete listing. During the SIA process and/or in the review of the construction drawings, if the DRC Chair determines that appurtenant items and/or unforeseen items have not been included in the infrastructure listing, the DRC Chair may include those items in the listing and related financial guarantee. Likewise, if the DRC Chair determines that appurtenant or non-essential items can be deleted from the listing, those items may be deleted as well as the related portions of the financial guarantees. All such revisions require approval by the DRC Chair, the User Department and agent/owner. If such approvals are obtained, these revisions to the listing will be incorporated administratively. In addition, any unforeseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility will be required as a condition of project acceptance and close out by the City.

**Re: Foraker Farms – Preliminary/Final Plat DRB Submittal**

Dear Ms. Matson:

On behalf of our client we would like to schedule a DRB hearing date for the referenced project so that we can obtain Preliminary/Final Plat approval.

Foraker Farms is a planned 5 lot residential subdivision located along the north side of Menaul Boulevard between 8<sup>th</sup> & 10<sup>th</sup> Streets. The approximate 1.22 acre site is an infill parcel with existing housing on the east, north, and west sides. Access to the site will be off of Menaul Boulevard via a new full-section Public street built per DPM standards. The site will be serviced by Public utilities extending from Menaul.

Included in this submittal package is a request for the deferral of on-site sidewalks which would be constructed after homes are built to avoid damaging the sidewalk. Also included is a request for a waiver/variance of sidewalk. Since the new street is a cul de sac that will serve only the new 5 lots, and since the street alignment is adjacent to the easternmost property line with no lots fronting from the east, sidewalk on that side is unnecessary. The sidewalk waiver request is also for sidewalk along the south side of the site, adjacent to Menaul Blvd. An MRGCD irrigation ditch is between this site and Menaul Blvd. with earthen berms along both sides of the ditch. The northernmost berm is approximately 5' high with numerous large diameter trees which would have to be removed in order to construct a sidewalk. Our office has conferred with MRGCD representatives in regards to their ditch and they would prefer that no sidewalk be constructed along it due to safety and maintenance concerns. A 6' wide sidewalk exists along the south side of Menaul at this location.

A drainage submittal has been made to City Hydrology for review prior to Preliminary Plat approval. Please contact our office if you have any questions.

Sincerely,

MARK GOODWIN & ASSOCIATES, P.A.
