ADMINISTRATIVE AMENDMENT INFORMATION SHEET

The Planning Department is authorized to approve minor changes to approved Site Development Plans. Minor changes may include expansion of building square footage not greater than 10% and/or other changes that will not have a harmful impact on adjacent property or street circulation. Refer to *Zoning Code* Section 14-16-2-22(A)(6).

Application Requirements

Administrative Amendment Applications are submitted at the Development and Building Services front counter. Each request is assigned an Application number and a Project number. Applications must include the following:

- Completed Application Form with fee submittal
- Letter of Authorization from the Property Owner (if application is submitted by an agent)
- Zone Atlas* page clearly denoting the subject site
- Copy of the most recent Official Notice of Decision pertaining to the subject site
- A letter describing the project and indicating the percent change in heated square footage (if applicable)
- 1 copy of the previously approved plan set (typically the DRB-approved set)
- 5 copies of the revised plan, including all relevant plan sheets. The plans must be clearly dated and labeled as revisions and all proposed changes must be clearly denoted. Changes to parking calculations, landscaping calculations and similar plan elements must be clearly indicated.
- Materials pertinent to Notification (if applicable, see below)

Notification

Amendments proposing a building expansion of more than 2% of the approved square footage and/or amendments which may substantially aggrieve* any person require notification by the applicant. In such instances, the *Zoning Code* requires notification to 2 officers of all Recognized Neighborhood Associations that bound or are adjacent to the subject site and notification to adjacent property owners. The term "adjacent," as it relates to Administrative Amendments, includes property contiguous to the subject site and property that would be contiguous if not for public rights-of-way. Therefore, properties across an alley or street from the subject site are considered adjacent. When notification is required, the following materials must be submitted with the application:

- Developer Inquiry Sheet (completed) from the Office of Neighborhood Coordination (924-3914) plus Notifying Letter (copy) and Certified Mail Receipts
- Zone Atlas* page highlighting adjacent properties (for which notice has been provided), List of adjacent property owners receiving notice, Notifying Letter (copy) and Certified Mail Receipts

Ownership of adjacent property can be determined by using the Bernalillo County Assessor's web site:

www.bernco.gov/assessor. **Notification letters** must clearly describe the project, identify the location of the subject property, provide a phone number for a project contact person, and indicate the phone number for the City Planning Department: 924-3860. The reverse side of this form provides a sample notification letter. Failure to adequately notify may result in delay, denial or forfeiture of approval.

Process / Timeframe

Upon receipt of a complete application, the request is reviewed by Hydrology, Utility Development, and Transportation Planning before final review by the Development Review Division. Oftentimes the Zoning Enforcement office also reviews the submittal, particularly if the request relates to signage. The entire process typically takes 10 or more business days.

Appeal

There is a 15-day period from the date of the final approval for filing appeals with the Planning Department. Appeals to Administrative Amendments are made to the City Council through the Land Use Hearing Officer.

* *Applicants who have reason to believe that one or more persons may be substantially aggrieved by a proposed Administrative Amendment shall comply with the Notification process specified above. Significant delays will result if the Development Review Division determines that adequate Notification has not been provided.*

NOTES: Administrative Amendments to Site Development Plans

First of all, it is essential to understand the original site plan approval process. The vast majority of AA's are based on site plans originally approved by the EPC. Almost every site development plan approved by the EPC includes conditions of approval that must be met. These conditions are reviewed in the DRB process before applicants can proceed to building permit. In reviewing AA's, our office rarely approves changes to site plans that are contrary to the conditions established by the EPC.

Submittal must include a Notice of Decision from the EPC. Sometimes the Notice cannot be found with a really old approval, say from the 1960s or 1970s. But in most cases, a Notice of Decision is available in our file room.

The applications must be complete at the time of submittal. If there are any questions about what is required, call Bob or Russell. In many instances, applications have been submitted for over a week before we review them. Applicant's become annoyed when asked to submit new information well after the submittal has been accepted.

Submittal must include a copy of the approved site development plan for building permit. The best thing is for applicants to submit all 4 sheets of the approved plan set. But there are times when Submittal of only the last AA approval sheet is rarely satisfactory.

Submittal of a DRB decision is only useful if the project was first approved by the DRB. This is rarely the case. The EPC has approval authority for most sites for which site plans are required.

It appears to me that (at least in some cases) applicants have not received the handout I prepared on Administrative Amendments. This information will help insure that a complete submittal is made.

Re: DRB Submittal for the property being Tract E,
Sandia Science and Technology Park
Letter of Request

Dear Ms. Matson:

With this letter we are submitting the project at Tract E-2 of the Sandia Science and Technology Park. The property is 4.459 acres at the intersection of Innovation Parkway and Research Road.

The project will be separated into two phases. Phase 1 consists of a two-story 34,500 square foot office building with related parking. Phase 2 consists of a 20,000 square foot building and related parking, as well. Because of the exact configuration and exterior elevations of the Phase 2 building, we are requesting approval of the Phase 1 project at this time, and will return to the DRB when the future building is further developed. However, the entire 4.4 acre site has been designed and planned to include both buildings.

The Phase 1 building has been sited to align the entry to the site and to the building with Research Road that is perpendicular to Innovation Parkway. The main drive into the site transitions to a landscaped round-about. This is located between the two buildings and helps to form an outdoor plaza in front of the two buildings. The setbacks for the building and parking are consistent with the covenants of the Park. Also, a 6' high cedar fence is noted on the east property line, which abuts the existing residential use.

The exterior of the building has been designed to complement the contemporary look of the other buildings within the Park. The exterior materials include precast concrete panels, stucco and colored aluminum storefront with tinted glazing.

Landscaping and exterior gathering spaces for this project are considered as important as the building design. The landscaping in the plazas in front of the building and on the east and north sides enhance the building, creates interest along Innovation Parkway, and screens the adjacent residential property.

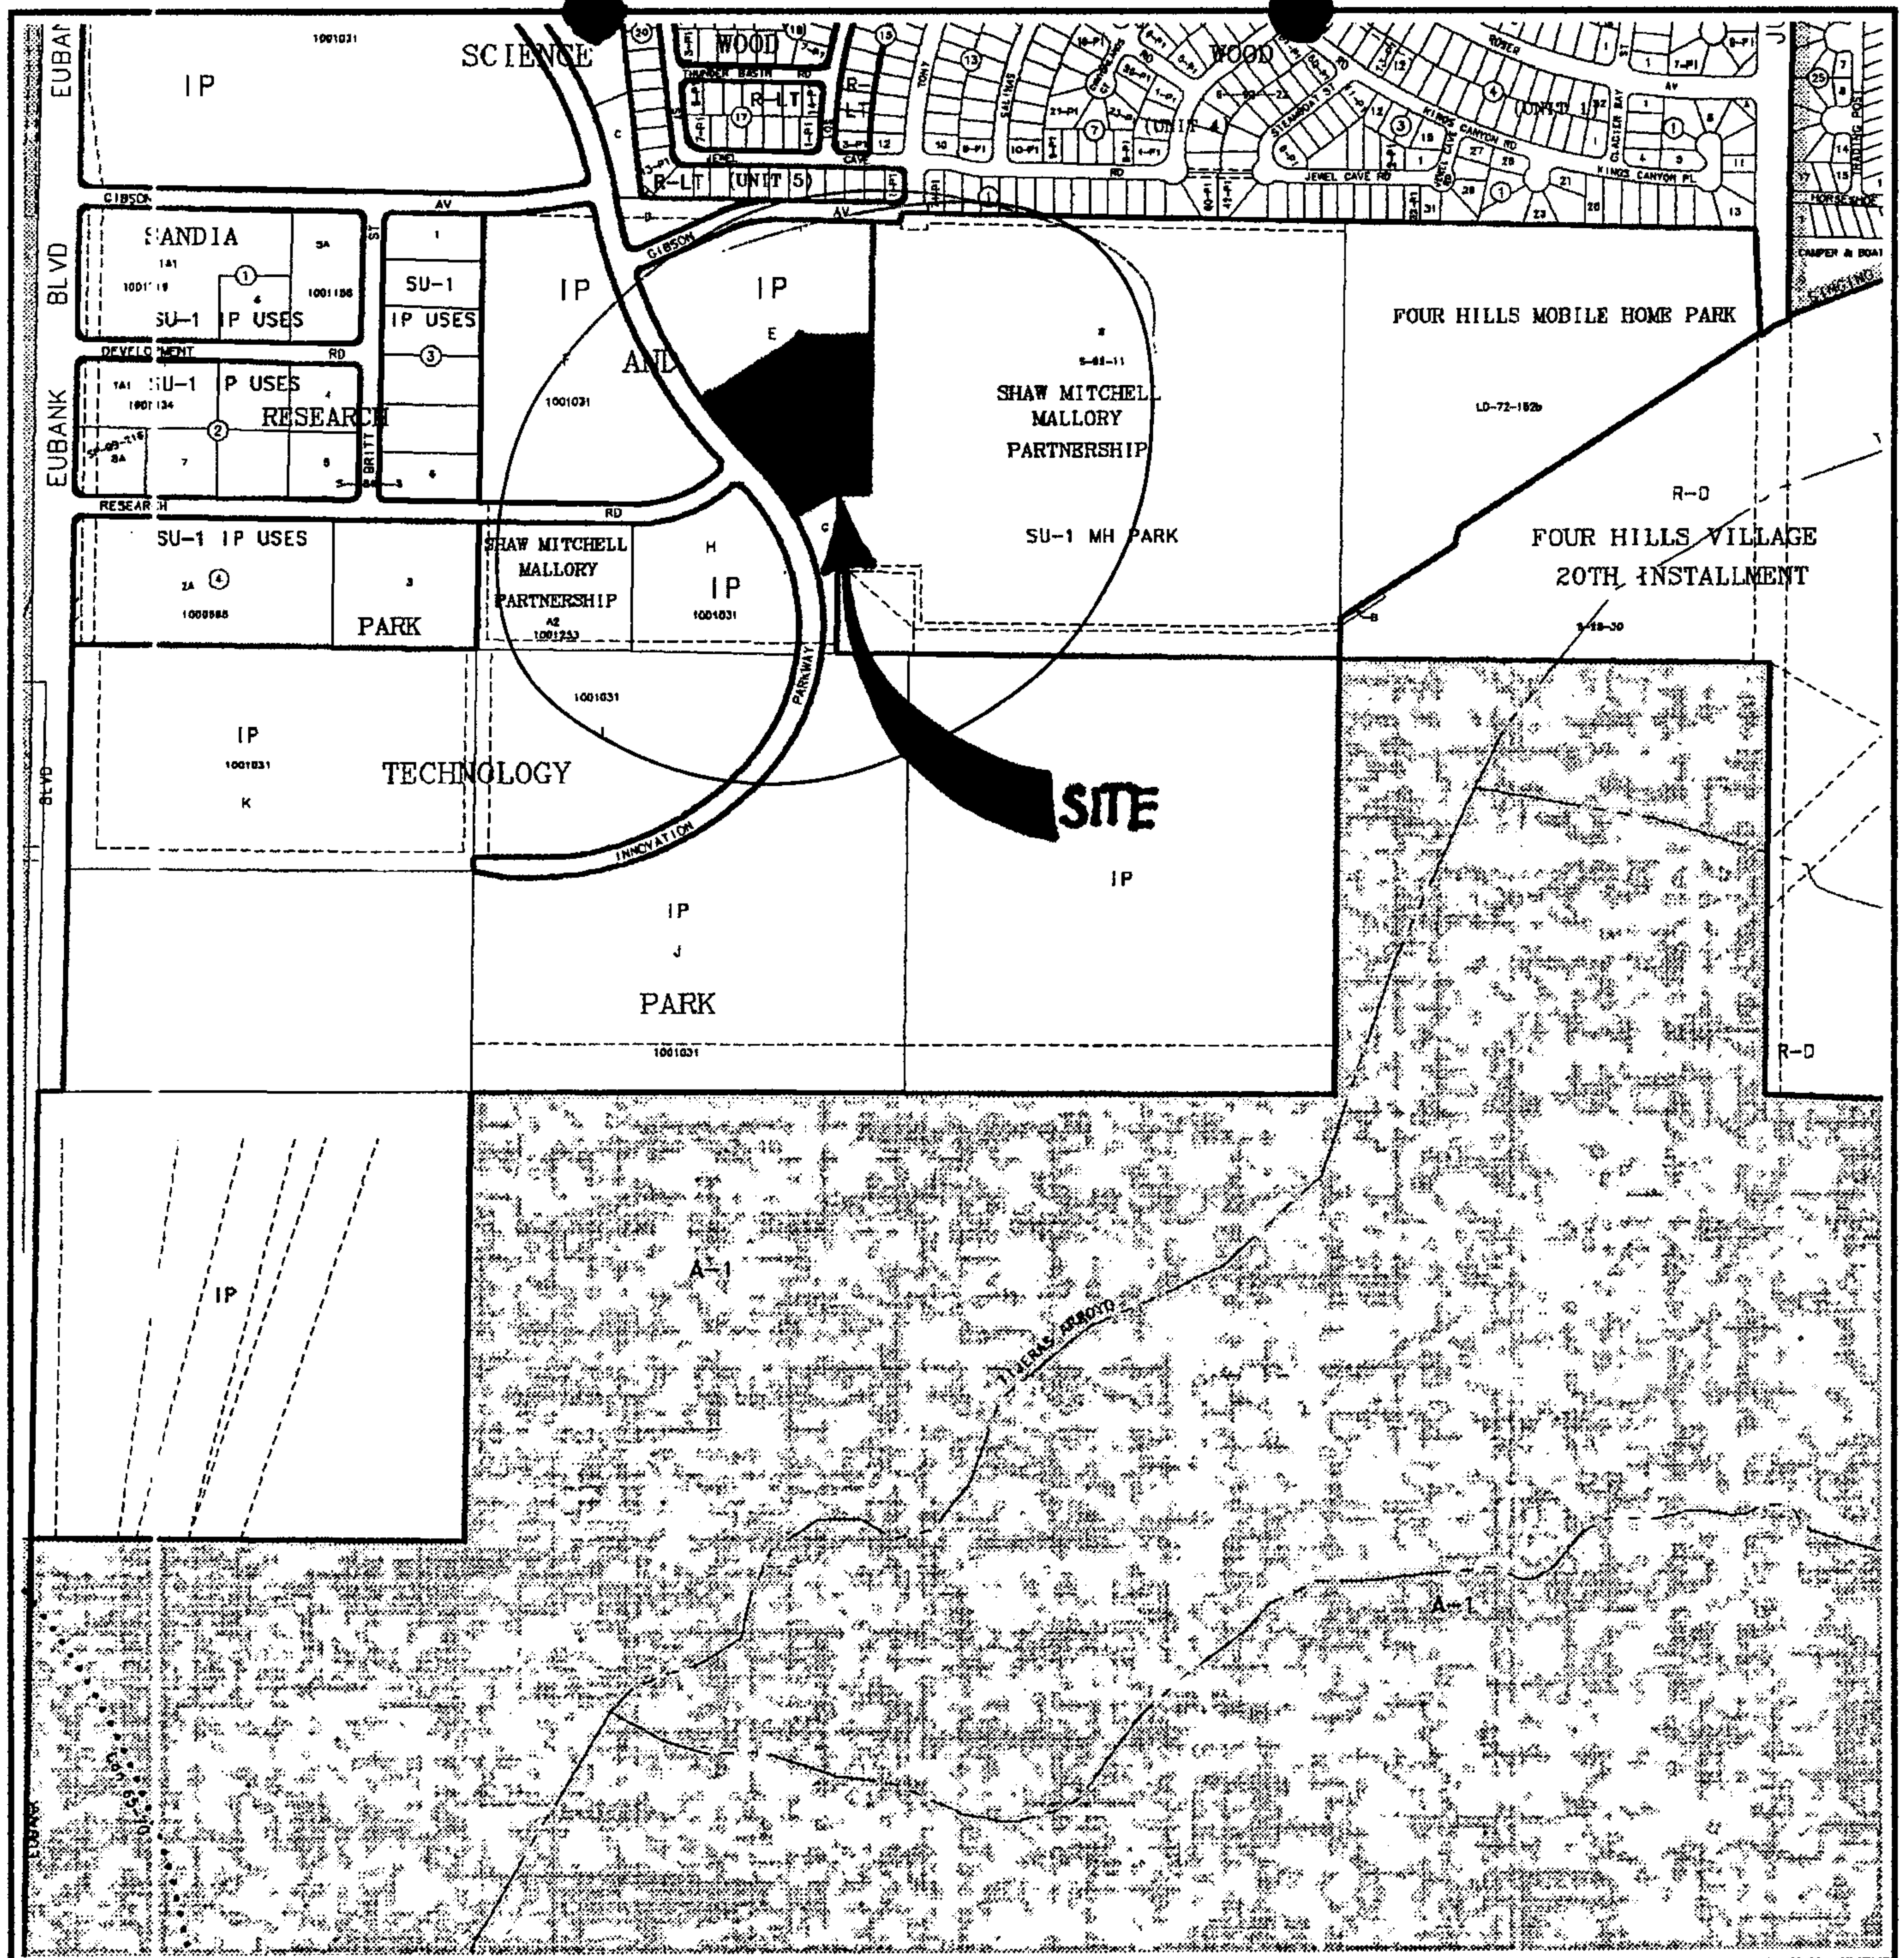

Sincerely,

Mullen Heller Architecture PC
