IMPACT FEES – # 1005482

Development Review Board 8/15/07 Agenda Item #12
Sketch Plat: Tracts 2 & 3, Mira Mesa Estates

Construction of new facilities within the proposed subdivision will require payment of Impact Fees. Impact Fees will be based on the type of use, the total square footage of the facilities, and on the impervious acreage of the development. These fees are available on the city's website- www.cabq.gov. Go to the "A-Z" feature and under the "I" impact fees will be the first item in this list. These fees are collected at the time a building permit is issued.

IMPACT FEES – # 1005482

**Development Review Board 8/15/07 Agenda Item #12
Sketch Plat: Tracts 2 & 3, Mira Mesa Estates**

Construction of new facilities within the proposed subdivision will require payment of Impact Fees. Impact Fees will be based on the type of use, the total square footage of the facilities, and on the impervious acreage of the development. These fees are available on the city's website- www.cabq.gov. Go to the "A-Z" feature and under the "I" impact fees will be the first item in this list. These fees are collected at the time a building permit is issued.

Planning Department
Inter-Office Memorandum

TO: Sheran Matson, DRB Chair

FROM: Anna DiMambro, Planner AD

SUBJECT: Project # 1005482

On May 17, 2007, the Environmental Planning Commission approved Project # 1005482/07EPC-00430, a request for approval of a site development plan for building permit for Tracts 2 and 3, Mira Mesa Estates, located on Hanover NW between 64th Street and 68th Street NW.

The applicant has satisfied all of the EPC conditions of approval with the following exceptions:

1. The retaining wall detail on sheet C501 shows a maximum total wall height of 15' as measured from the residential side. A maximum of 8' total as measured from the residential side is permissible. Height up to 10' may be approved as a conditional use (Condition 7b).
2. The applicant has not provided parking screening along Hanover as required by Zoning Code Section 14-16-3-1 (F)(4) (Condition 8).
3. The applicant has not added a note to the lighting details specifying that all lighting will be in compliance with 14-16-3-9 (Condition 10a).
4. The applicant has not provided low growing groundcover in the planting strip between the sidewalk and the street (Condition 11).
5. The following typographical errors have not been corrected:
 - a. Hanover MW has not been replaced with Hanover NW on sheet C101 (Condition 14a).
 - b. The correct form of the word "than" has not been used on sheet L100 (Condition 14b).

If you should have any questions regarding this case, please do not hesitate to call me at 924-3924.

Thank you.

EXISTING LEGAL DESCRIPTION PRIOR TO PLATTING ACTION _____

Following is a summary of PUBLIC/PRIVATE Infrastructure required to be constructed or financially guaranteed for the above development. This listing is not necessarily a complete listing. During the SIA process and/or in the review of the construction drawings, if the DRC Chair determines that appurtenant items and/or unforeseen items have not been included in the infrastructure listing, the DRC Chair may include those items in the listing and related financial guarantee. Likewise, if the DRC Chair determines that appurtenant or non-essential items can be deleted from the listing, those items may be deleted as well as the related portions of the financial guarantees. All such revisions require approval by the DRC Chair, the User Department and agent/owner. If such approvals are obtained, these revisions to the listing will be incorporated administratively. In addition, any unforeseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility will be required as a condition of project acceptance and close out by the City

Re: Deficiencies for Project 1005482, Hanover Business Center

To Whom it May Concern:

This itemized document shall serve as our official response to the comments made by the City of Albuquerque in regards to Project 1005482, Hanover Business Center. We have also transmitted twelve revised drawing sets at 24" x 36" and color renderings under separate cover for your review. The site plan, the elevations (sheet A201), and the landscape plan have been re-issued.

Very truly yours,

Rupal S. Engineer, A.I.A.
Managing Member, Design Plus, LLC

[ENCLOSURES]

ARCHITECTURAL ISSUES/RESPONSES

Issue: Light poles within 100' of a residential zone need to be 16' or lower.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Regular parking spaces need to be 8.5' wide.

Response: There were a number of ambiguous parking spaces in the previous submittal; this issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Spelling error in "pass-thru lane".

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Why is square footage shown differently on site plan and landscape plan?

Response: This issue has been corrected. Refer to revised A100 and L100.

Issue: Incorporate 6' wide pedestrian walkways from parking areas to buildings.

Response: This issue has been addressed. Refer to revised A100, 'SITE PLAN'.

Issue: Consider moving Handicapped parking spaces to centers of buildings instead of edges.

Response: Comment noted. Design Plus, LLC will consider revising the layout of handicapped parking spaces.

Issue: Sidewalks along major facades must be 10' wide with 6' clear at all points (drive aisles may be reduced to 24').

Response: This issue has been addressed. Refer to revised A100, 'SITE PLAN'.

Issue: Comply with public space provisions of Zoning Code Section 14-16-3-18 (C)(4).

Response: 640 S.F. of landscaped, public area (with benches) has been provided in the center of this project. Refer to revised A100, 'SITE PLAN', keynote #16.

Issue: Change key note 5 on page A100 to read "landscape area".

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: 5 motorcycle parking spaces are required.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Correct spelling in key note 15.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Are key notes 10 and 13 duplicates?

Response: Yes. This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Consider providing smaller bike racks at each building rather than large ones at some buildings.

Response: Comment noted. Design Plus, LLC will consider revising the layout of bike racks.

Issue: Provide descriptions of site amenities.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Dumpster may not be located within the south landscape buffer.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Project requires an additional refuse enclosure for recycle and trash overflow.

Response: Design Plus, LLC would like to request a "conditional approval" of this project, pending conversations with the Solid Waste Management Division. All necessary measures will be taken to comply with the City requirements.

Issue: Is the planned use office or retail? Site plan indicates office, while letter to commission indicates retail. Office requires more parking.

Response: This project is intended as a business park: it will house professionals involved in the production/distribution of goods and services, and it will include a minimal storefront component. We cannot reliably predict the percentage of space that might become engaged in strictly retail or in strictly "office" work; this is a general commercial project. We have calculated parking in accordance with a "retail" use based on conversations with Anna A. DiMambro at the City of Albuquerque.

Issue: Page A101, change title of drawing '2' to "enlarged trash enclosure plan – typ".

Response: Text is corrected.

Issue: Ensure that all walls comply with wall design regulations in the Zoning Code Section 14-16-3-19.

Response: Comment noted. All walls comply with these design requirements.

Issue: Indicate illumination level of monument sign lighting.

Response: The illumination of the monument sign will be 200 footlamberts, which is in compliance with Zoning Code Section 14-16-3-19 (C)(1).

Issue: List common name colors for all building materials (doors, tile, trellises).

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN', and to revised A201, 'BUILDING ELEVATIONS'.

Issue: Tile walls may create a CPTED problem as doors are not visible.

Response: In this project, tile is mounted strictly to the building façade: there are no "screens" or "coves". In no instance does tile (or any other building surface) restrict visual or physical access to the entry doors. Refer to A100, 'SITE PLAN'.

Issue: Provide color rendering in 8 ½ x 11 size.

Response: Color renderings have been enclosed with this document.

Issue: Page A201 keyed notes: what is the difference between 1 and 15?

Response: The signs indicated by keynote #1 are not lighted, and will be applied as necessary to portions of the building façade that do not serve as a main entrance (as opposed to the signage shown in A201). The signs indicated by keynote #15 are 20 S.F. and are back-lit as noted on A201. One of these signs will be installed above the main entrance to each business suite.

Issue: Provide design information for signage.

Response: The signs indicated by keynote #1 are not lighted, are less than 20 square feet in area, and will not exceed twenty percent of the area of the façade to which they are applied. The signs indicated by keynote #15 are 20 S.F. and are back-lit as noted on A201. Their luminance will not exceed 200 footlamberts at night. The illumination of these signs will comply with all provisions of Zoning Code Section 14-16-3-5 (C).

Issue: Show dimensions of each planting bed.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: This site is not regulated by any sector development plan. The policies of the Comprehensive Plan and the West Side Strategic Plan should be considered.

Response: Comment noted. Design Plus, LLC has considered these sector development plans in developing this proposal, and will continue to do so.

Issue: Overall, this submittal is grossly inadequate and will need to be redesigned to meet the requirements specified or since the site is zoned C-2, the applicant will need to apply for a variance from the ZHE in order to comply with the Zoning Code.

Response: No variance will be required to meet the requirements of zone C-2. No warehousing will occur at this site (as per "Off-Street Parking" comments from the Agency). The "Storage" area indicated on A100 is simply the amount of area we anticipate will be taken up for the storage of non-comestible items related to the businesses inhabiting this site.

Issue: These errors will affect the overall site and the amount of off-street parking that is required. These errors will also affect the amount of handicap parking spaces that are required, the amount of parking lot trees that are required, and the amount of bicycle spaces that are required.

Response: Design Plus, LLC has addressed all comments provided by the City of Albuquerque, and has adjusted the provisions of this proposal where required. Refer to A100, 'SITE PLAN'.

Issue: The proposed freestanding sign (between 3 and 8 feet in height) is required to be 10 feet from the right-of-way line.

Response: The sign is 10 feet from the right-of-way line.

Issue: The building facades do not meet the Pedestrian Features requirements found in the General Building and Site for Non-Residential Uses section of the Zoning Code.

Response: The building facades comply with all provisions of the Zoning Code and CPTED. Mechanical equipment will be located as shown in revised A100, 'SITE PLAN', and will be screened by parapets as necessary. An outdoor seating area has also been added to the 'SITE PLAN'.

Issue: The type of lighting fixtures proposed does not meet the standards of the Area Lighting Regulations of the Zoning Code. A notation should be provided indicating that the site will comply with Section 14-16-3-9, Area Lighting Regulations of the Zoning Code. Special attention should be considered in the area where the site abuts a residential zone.

Response: A notation will be provided in final architectural drawings.

LANDSCAPE ISSUES / RESPONSES

Issue: Landscape buffer must be primarily evergreen trees. Other criteria are listed in Zoning Code Section 14-16-3-10 (E) (4).

Response: This issue has been corrected. Refer to revised L100, 'LANDSCAPE PLAN'.

Issue: Ensure that all planting beds have at least 75% live groundcover (does not include tree canopy). The Commission has been requesting 80% live groundcover.

Response: Comment noted. All planting beds have at least 75% live groundcover: refer to revised L100, 'LANDSCAPE PLAN'. Design Plus, LLC will strive to implement 80% live groundcover as appropriate in the final design.

Issue: Not all parking spaces located behind the east and west buildings are within 100' of a tree.

Response: This issue has been corrected. Refer to revised L100, 'LANDSCAPE PLAN'.

Issue: Show dimensions on each planting bed.

Response: This issue has been corrected. Refer to revised A100, 'SITE PLAN'.

Issue: Review landscape plan to match site plan, including parking calculations.

Response: This issue has been addressed. Refer to revised A100, 'SITE PLAN', and revised L100, 'LANDSCAPE PLAN'.

Issue: Provide a mixture of species for street trees.

Response: This issue has been addressed. Refer to revised L100, 'LANDSCAPE PLAN'.

Issue: Show calculations for live groundcover.

Response: This issue has been addressed. Refer to revised L100, 'LANDSCAPE PLAN'.

Issue: Show graphic scale on landscape plan.

Response: This issue has been addressed. Refer to revised L100, 'LANDSCAPE PLAN'.

CIVIL ISSUES / RESPONSES

Issue: Conceptual grading & drainage plan shows wall section with a maximum of 10' in height. Anything over 8' is a conditional use.

Response: Grading Plan will be graded to accommodate a wall 8' or less in height. A conditional use will not be required with final plan.

Issue: Grading & Drainage Plan only lists Lot 2. Incorporate Lot 3 into the narrative sections.
Response: Comment noted. Please refer to revised Conceptual Grading & Drainage Plan narrative.

Issue: Sheets C100 and C101 show "Hanover Rd MW". Should that be NW?
Response: Text is corrected.

Issue: Spelling of Hanover is not consistent on page C100.
Response: Text is corrected.

Issue: Page C100 Proposed Conditions narrative says, "The natural lying along the south side..." Are words missing?
Response: Comment noted. Please refer to revised Conceptual Grading & Drainage Plan narrative.

PUBLIC WORKS DEPARTMENT
Transportation Development (City Engineer/Planning Department)

Issue: The developer is responsible...
Response: The southside of Hanover Road NW fronting the subject property is constructed to final City Standards. Southside includes asphalt, curb & gutter, sidewalk, etc. This project will require drive access permits and construction of standard private entrances, including ADA wheel chair ramps, valley gutter, etc. per City Standards. The City's comments are noted but are not entirely applicable as stated.

Issue: Provide truck turning radius information...
Response: Comment noted. Please refer to revised Site Plan.

Issue: Sign truck delivery entrance and exit...
Response: Comment noted. Please refer to revised Site Plan.

Issue: At main entrances, provide 15' curb return radii...
Response: Comment noted. Please refer to revised Site Plan.

Issue: Site Plan shall comply and be designated per DPM Standards.
Response: A notation will be provided in final drawings. Please refer to revised Site Plan.

Hydrology Development (City Engineer/Planning Department)

Issue: There is an existing FEMA floodplain...
Response: Final Engineering will adhere to the flood hazard regulations.

CIVIL – ENCLOSURES

• **Revised Conceptual Grading & Drainage Plan Narrative**

Existing Conditions

The project site is located at Hannover Road NW Zone Atlas Map J-10-Z. The legal description is Tract #1 and #2 of the Correction Plat of MIRA MESA ESTATES, Tracts 217, 218, 219, and 220, Town of Atrisco Grant, Albuquerque, New Mexico. The site has approximately 5 acres of land treatment type D, soil is compacted by human activity. Site topographic slopes to the center of the site, it is bounded by Hanover Road NW to the north, lots C-3 to the east, and R-2 to the south and west. The area lies within precipitation zone 1 of Albuquerque's DPM (Development Process Manual). Surface runoff drains in a sheet flow fashion from north to the center to the site. Historically runoff is concentrated at the center of the site above track R-2, and discharges approximately 6.40 ft³/s.

Proposed Conditions

On the site a commercial center will be constructed influencing the runoff of the site. According to FEMA the site is partially in a flood zone. The site is in zone AE (Base Flood Elevations determined). This area will be graded to eliminate possible flooding. Proposed grading will redirect run-off onto a storm drain located on Hannover Street using half of a percent surface slope. A proposed 18" RCP storm drain will be installed as well as a man hole in Hanover Road NW this to manage the runoff of the site. A retaining wall will be constructed at the south of the site. The natural low lying area along the south side of the site will be filled by native earthfill. The southern side of the retaining wall will be water proofed. A large sub-surface gallery will be constructed at the retaining wall footing to accommodate existing local ponding. The approximately peak flow will be 22.04 ft³/s. A LOMR will be required to remove the existing floodplain.

OFFICIAL NOTIFICATION OF DECISION

FILE: **Project # 1005482***
07EPC-00430 EPC Site Development Plan-
Building Permit

Stonebridge Investment Group
6500 Hanover Rd. NW
Albuq. NM 87121

LEGAL DESCRIPTION: for all or a portion of Tracts 2 & 3, **Mira Mesa Estates**, zoned C-2 (SC), located on HANOVER NW, between 64TH ST. NW and 68TH ST. NW, containing approximately 5 acres. (J-10) Anna DiMambro, Staff Planner

On May 17, 2007 the Environmental Planning Commission voted to approve Project 1005481/07EPC 00430, a request for approval of a site development plan for building permit, for Tracts 2 and 3, Mira Mesa Estates, based on the following Findings and subject to the following Conditions:

FINDINGS:

1. This is a request for approval of a site development plan for building permit for Tracts 2 and 3, Mira Mesa Estates, located on Hanover NW between 64th and 68th and zoned C-2 (SC). The site is approximately 5.0 acres and is currently vacant. The applicant is proposing to construct three single-story buildings on the site to house a mixture of retail and service uses.
2. The subject site is located within the area designated Established Urban by the Comprehensive Plan and is within the boundaries of the West Side Strategic Plan.
3. This request furthers Developing and Established Urban policies of the Comprehensive Plan:
 - a. The location, intensity, and design of this development respect existing neighborhood values, the natural environment, and scenic and other resources (Policy d).
 - b. The subject site located contiguous to existing urban facilities and services. Site plan review will ensure the integrity of the existing neighborhoods (Policy e).
 - c. This request proposes employment and services uses and is located to complement residential areas. Site plan review will ensure minimization of the effects of noise, lighting, pollution, and traffic on the residential environment (Policy i).

OFFICIAL NOTICE OF DECISION

MAY 17, 2007

PROJECT #1005482

Page 2 OF 5

- d. This request is appropriate to the Plan area and incorporates some interesting design features (Policy 1).
4. This request furthers Comprehensive Plan Policy a for Economic Development by proposing new employment opportunities that will accommodate a wide range of occupational skills and salary levels.
5. This request furthers applicable policies of the West Side Strategic Plan:
 - a. This request is not for a strip commercial development, but rather for a clustered development (Policy 1.3).
 - b. This request proposes development of an employment center (Policy 1.6).
 - c. This request proposes new commercial development in the Atrisco Park Community (Policy 3.33).
 - d. This request creates jobs south of I-40. The proposed business center will aid small business development efforts and could function as a business incubator. It is located near the Atrisco Business Park (Policy 3.88).
 - e. This request complies with the Design Guidelines of the West Side Strategic Plan (Policy 4.6).
6. There is no known neighborhood or other opposition to this request. The Los Volcanes Neighborhood Association has submitted a letter of support for this development.

CONDITIONS:

1. The EPC delegates final sign-off authority of this site development plan to the Development Review Board (DRB). The DRB is responsible for ensuring that all EPC Conditions have been satisfied and that other applicable City requirements have been met. A letter shall accompany the submittal, specifying all modifications that have been made to the site plan since the EPC hearing, including how the site plan has been modified to meet each of the EPC conditions. Unauthorized changes to this site plan, including before or after DRB final sign-off, may result in forfeiture of approvals.
2. Prior to application submittal to the DRB, the applicant shall meet with the staff planner to ensure that all conditions of approval are met.
3. The applicant shall demonstrate how the Water Management Goal, Section II.D.2 of the Comprehensive Plan, is furthered.
4. The applicant shall demonstrate how the Energy Management Goal, Section II.D.3 of the Comprehensive Plan, is furthered.
5. Recommended conditions from City Engineer, Municipal Development, Water Authority, and NMDOT:

OFFICIAL NOTICE OF DECISION

MAY 17, 2007

PROJECT #1005482

Page 3 OF 5

- a. The Developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed site development plan. Those improvements will include any additional right-of-way requirements, paving, curb and gutter, sidewalk and ADA accessible ramps that have not already been provided for. All public infrastructure constructed within public right-of-way or public easements shall be to City Standards. Those Standards will include but are not limited to sidewalks (std. dwg. 2430), driveways (std. dwg. 2425), private entrances (std. dwg. 2426) and wheel chair ramps (std. dwg. 2441).
 - b. For two-way operation, consideration should be given to creating one main 30' wide site drive with 25' curb return radii that accesses the site. If two site drives are desired, drives should be 25' minimum in width and 50' apart, flowline to flowline, with 15' curb return radii minimum but 25' desirable. In addition, if one-way operation is desired then the drives should be 22' wide maximum and signed and marked accordingly.
 - c. At truck delivery entrance/exit, drives should be 22' minimum width with 25' curb return radii minimum for one-way operation. Sign and mark accordingly. Provide truck turning radius information (i.e. design vehicle) to verify.
 - d. As shown on the site plan, delete one-way markings and signing of main site drives and drive aisles as parking is perpendicular and drive aisles are 24' wide (typical for two-way operation). If one-way operation is desired, then drive aisles should be 22' maximum and parking should be self enforcing angled parking (see DPM).
 - e. Delete parking spaces adjacent to and at rear of buildings on south side of site. 20' minimum clear distance to be maintained at all times for one-way operation, fire and solid waste access. Sign and provide pavement markings delineating one-way drive aisle.
 - f. Provide truck turning radius information for delivery areas at overhead doors (i.e. turning templates, for design vehicles, on site plan).
 - g. Drives on opposite sides of the street need to be offset at least 50' or centerlines need to be within 15' of each other. May be adjusted, if affected drives are exit or enter only (check with Traffic Engineer).
 - h. Site plan shall comply and be designed per DPM Standards.
 - i. There is an existing FEMA floodplain on this site. All buildings on this site must adhere to flood hazard regulations.
6. Pedestrian amenities:
- a. Relocate public outdoor space outside to the north end of the parking lot between Business Units 4 and 5.
 - b. Revise square footage calculation of public outdoor space.
 - c. Provide seating adjacent to major facades at the rate of one seat per 25 feet of façade.
7. Walls:
- a. The west sidewall of the site shall have two 30-foot openings to allow connectivity when the adjacent Tract 1 develops. The locations of the openings shall be acceptable to the city's Traffic Engineer and reciprocal cross access easements are also necessary.

- b. The wall separating the residential uses from the subject site shall be a maximum of 8' high as measured from the residential side. Height up to 10' is a conditional use and must receive approval from the Zoning Hearing Examiner.
 - c. The retaining wall shall be of split-face CMU with the split-facing on the residential side. The party wall above the retaining wall shall be of split-face CMU with the split-facing alternating between the residential side and the subject site.
8. Provide parking screening along Hanover per the requirements of 14-16-3-1 (F)(4).
9. Provide bicycle racks convenient to southern building.
10. Lighting:
 - a. Add a note to the lighting details specifying that all lighting will be in compliance with 14-16-3-9.
 - b. The monument sign shall not be uplit. The applicant shall use sign lighting that meets the intent of the New Mexico Night Sky Protection Act.
11. Low growing groundcover shall be located in the planting strip between the sidewalk and Hanover road. This and all other planting areas shall achieve 80% live ground coverage at maturity.
12. Dumpster number and location shall comply with Solid Waste Management division requirements.
13. Revise Key Note 15 on page A100 to read "Mechanical equipment to be screened by parapet."
14. Typographical errors:
 - a. Hanover shall be spelled correctly and consistently on all sheets. MW shall be replaced with NW on pages C100 and C101.
 - b. Use proper form of the word "than" in the last Note on page L100.
 - c. The number of parking spaces provided shall be revised on page L100.
 - d. Correct Proposed Conditions narrative on page C100. Replace "The natural lying along..." with "The natural low-lying area along..."
 - e. Incorporate Tract 3 into narrative on page C100.
15. The applicant shall correct colors indicated on the site development plan to match those indicated in color renderings.

IF YOU WISH TO APPEAL/PROTEST THIS DECISION, YOU MUST DO SO BY **JUNE 1, 2007** IN THE MANNER DESCRIBED BELOW. A NON-REFUNDABLE FILING FEE WILL BE CALCULATED AT THE LAND DEVELOPMENT COORDINATION COUNTER AND IS REQUIRED AT THE TIME THE APPEAL IS FILED. IT IS NOT POSSIBLE TO APPEAL EPC RECOMMENDATIONS TO CITY COUNCIL; RATHER, A FORMAL PROTEST OF THE EPC'S RECOMMENDATION CAN BE FILED WITHIN THE 15 DAY PERIOD FOLLOWING THE EPC'S DECISION.

OFFICIAL NOTICE OF DECISION

PROJECT #1005482

Page 5 OF 5

Appeal to the City Council: Persons aggrieved with any determination of the Environmental Planning Commission acting under this ordinance and who have legal standing as defined in Section 14-16-4-4.B.2 of the City of Albuquerque Comprehensive Zoning Code may file an appeal to the City Council by submitting written application on the Planning Department form to the Planning Department within 15 days of the Planning Commission's decision. The date the determination in question is issued is not included in the 15-day period for filing an appeal, and if the fifteenth day falls on a Saturday, Sunday or holiday as listed in the Merit System Ordinance, the next working day is considered as the deadline for filing the appeal. The City Council may decline to hear the appeal if it finds that all City plans, policies and ordinances have been properly followed. If they decide that all City plans, policies and ordinances have not been properly followed, they shall hear the appeal. Such appeal, if heard, shall be heard within 45 days of its filing.

YOU WILL RECEIVE NOTIFICATION IF ANY PERSON FILES AN APPEAL. IF THERE IS NO APPEAL, YOU CAN RECEIVE BUILDING PERMITS AT ANY TIME AFTER THE APPEAL DEADLINE QUOTED ABOVE, PROVIDED ALL CONDITIONS IMPOSED AT THE TIME OF APPROVAL HAVE BEEN MET. SUCCESSFUL APPLICANTS ARE REMINDED THAT OTHER REGULATIONS OF THE CITY MUST BE COMPLIED WITH, EVEN AFTER APPROVAL OF THE REFERENCED APPLICATION(S).

Successful applicants should be aware of the termination provisions for Site Development Plans specified in Section 14-16-3-11 of the Comprehensive Zoning Code. Generally plan approval is terminated 7 years after approval by the EPC

Re: Staff Report for Project 1005482, Hanover Business Park

To Whom It May Concern:

This itemized document shall serve as our official response to the staff report prepared by the City of Albuquerque Planning Department in regards to Project 1005482, Hanover Business Park.

Very truly yours,

Rupal S. Engineer, A.I.A.
Managing Member, Design Plus, LLC

[ENCLOSURES]

RESPONSE TO CONDITIONS OF APPROVAL

Issue #2: Prior to application submittal to the DRB, the applicant shall meet with the staff planner to ensure that all conditions of approval are met.

Response: Design Plus, LLC has met with Mrs. Anna DiMambro, Planner, to ensure that all conditions of approval have been met.

Issue #3: The applicant shall demonstrate how the Water Management Goal, Section II.D.2 of the Comprehensive Plan, is furthered. Section II.D.2 Policy 'A' states that "Measures shall be adopted to discourage wasteful water use, such as extensive landscape water runoff to uncultivated areas." Section II.D.2 Policy 'B' states that "Maximum absorption of precipitation shall be encouraged through retention of natural arroyos and other means of runoff conservation within the context of overall water resource management".

Response:

Policy A: This plan is designed to comply with C.O.A. Landscape and Waste Water Ordinance, Planting Restrictions Approach. The irrigation system specified on sheet L100 is an automatic drip system with backflow prevention per C.O.A. specifications. All plantings require low/medium water use, and mulch will be applied to maximize water retention. Wasteful water usage is thus discouraged in a comprehensive fashion.

Policy B: This existing site contains an overall depression of approximately seven feet in the

south-center portion (refer to C101), but is otherwise relatively flat. The site does not contain any natural arroyos. It is the intent of this proposal to foster and maintain on-site water absorption by providing mulched, permeable landscape areas which are located to catch and retain roof drain runoff wherever possible. Percolation / recharge bore pits will be considered as an option to minimize runoff from paving surfaces. Refer to the narrative on sheet C100 for other details regarding water management.

Issue #4: The applicant shall demonstrate how the Energy Management Goal, Section II.D.3 of the Comprehensive Plan, is furthered. The goal is as follows: "...to maintain an adequate, economical supply of energy through energy management techniques and use of alternative and renewable energy sources."

Response: This proposal furthers Section II.D.3 of the Comprehensive Plan through urban planning technique and direct engineering. [1] Hanover Office Park is planned as a dense, flexible space in close proximity to public institutions and fast-expanding residential areas. Design Plus, LLC hopes to reduce the unnecessary physical space between residence, institution, and business in an attractive and sustainable manner. [2] The density of this proposal reduces the number of required fixtures/utilities and allows twenty-nine flexible business spaces to share the same infrastructure. Energy consumption will be further reduced via the use of low-voltage interior fixtures and exterior fixtures with photocells and/or timers per the Zoning Code.

Issue #5a: The developer is responsible for permanent improvements to the transportation facilities adjacent to the proposed site development plan...

Response: This issue has been addressed in the letter we submitted to the Planning Department on 5/4/07, "Re: Deficiencies for Project 1005482, Hanover Business Center".

Issue #5b: For two-way operation, consideration should be given to creating one main 30' wide site drive with 25' curb return radii that accesses the site. If two site drives are desired, drives should be 25' minimum in width and 50' apart, flowline to flowline, with 15' curb return radii minimum but 25' desirable. In addition, if one-way operation is desired then the drives should be 22' wide maximum and signed and marked accordingly.

Response: Design Plus, LLC will provide one, 30-foot wide site drive with 25'-0" return radii to accommodate two-way operation. This site drive will be located at the centerline of the drive previously marked "Vehicular Ingress". There are no site drives within 50'-0" of this location on the North side of 'Hanover Road NW'.

Issue #5c: At truck delivery entrance/exit, drives should be 22' minimum width with 25' curb return radii minimum for one-way operation. Sign and mark accordingly. Provide truck turning radius information (i.e. design vehicle) to verify.

Response: Drive width and radii have been revised, and entrance/exit signs have been provided. The design vehicle is a 'Single Unit Truck' (SU Vehicle), which has a minimum centerline turning radius of 38 ft or 42 ft. Single unit trucks are typically 30 ft long with a 20 ft wheel base (distance between wheel axles).

Issue #5d: As shown on the site plan, delete one-way markings and signing of main site drives and drive aisles as parking is perpendicular and drive aisles are 24' wide (typical for two-way operation). If one-way operation is desired, then drive aisles should be 22' maximum and parking should be self enforcing angled parking (see DPM).

Response: Please refer to the response we provided to 'Issue #5b'. All one-way markings and signing of main site drives and drive aisles will be deleted. Two-way operation is desired.

Issue #5e: Delete parking spaces adjacent to and at rear of buildings on south side of site. 20' minimum clear distance to be maintained at all times for one-way operation, fire and solid waste access. Sign and provide pavement markings delineating one-way drive aisle.

Response: No changes or deletions will be necessary: 20' minimum clear distance is maintained along the entire length of the rear drive aisle. The City Traffic Engineer concurs

with this statement.

Issue #5f: Provide truck turning radius information for delivery areas at overhead doors (i.e. turning templates, for design vehicles, on site plan).

Response: Comment noted. Design Plus, LLC has provided turning radius information for delivery trucks (marked: "Service Vehicles' Turn Radius") on the site plan. Please refer to the response we provided for 'Issue #5c' for design vehicle information.

Issue #5g: Drives on opposite sides of the street need to be offset at least 50' or centerlines need to be within 15' of each other. May be adjusted, if affected drives are exit or enter only (check with Traffic Engineer).

Response: Please refer to the response we provided to 'Issue #5b'. There are no existing drives on the opposite side of "Hanover Road NW" within 50'-0" of our proposed site drive. The service drive to the east and the west of this project is one-way, and the City Traffic Engineer has stated he is willing to consider an adjustment for this use.

Issue #5h: Site plan shall comply and be designed per DPM standards.

Response: Comment noted. Design Plus, LLC will ensure the final site plan is in compliance with DPM standards.

Issue #5i: There is an existing FEMA floodplain on this site. All buildings on this site must adhere to flood hazard regulations.

Response: Final Engineering will adhere to the flood hazard regulations.

Issue #6a: Relocate public outdoor space outside to the north end of the parking lot between Business Units 4 and 5.

Response: The public outdoor space has been relocated.

Issue #6b: Revise square footage calculation of public outdoor space.

Response: The public space drawn on A100 measures 16'-0" x 72'-0", which is 1152 square feet (not 640 as indicated on A100). The drawing set has been revised to reflect 1152 square feet of public space.

Issue #6c: Provide seating adjacent to major facades at the rate of one seat per 25 feet of façade.

Response: Design Plus, LLC will provide seating beneath the trellises indicated on A100 at the rate of one seat per 25 feet of façade.

Issue #7a: The west side of the site shall not be walled. This will allow connectivity when Tract 1 develops.

Response: Hanover Office Park, LLC is open to connectivity with Tract One, but has expressed concern regarding several issues. [1] The existing site is presently used as a dumping ground, and we anticipate that use will continue indefinitely on Tract One. [2] Tract One might be developed into a use that is not compatible with Hanover Business Park; connectivity might always be added at a later date if desired (the proposed CMU wall in this location is not structural). [3] Hanover Office Park will be maintained by a Condominium Association, and the logistics of any shared/joint arrangement will need to be established prior to connectivity.

Issue #7b: The wall separating the residential uses from the subject site shall be a maximum of 8' high as measured from the residential side. Height up to 10' is a conditional use and must receive approval from the Zoning Hearing Examiner.

Response: This issue has been addressed and corrected in the letter we submitted to the Planning Department on 5/4/07, "Re: Deficiencies for Project 1005482, Hanover Business Center". The wall separating the residential uses from the subject site shall be a maximum of 8' high as measured from the residential side.

Issue #7c: The retaining wall shall be of split-face CMU with the split facing on the residential side. The party wall above the retaining wall shall be of split-face CMU with the split-facing alternating between the residential side and the subject site.

Response: Design Plus, LLC has revised "Section A: Retaining Wall Detail" on sheet C100. The existing CMU wall is tied to a number of 'party walls' separating lots on the residential side, and is thus not feasible to remove. The proposed retaining wall will abut the existing CMU construction, and thus will not require the installation of split-face CMU on the residential side. Split-faced CMU will be integrated into the design of the party wall (facing inward toward site) to add visual interest.

Issue #8: Provide parking screening along Hanover per the requirements of 14-16-3-1 (E)(4).

Response: Design Plus, LLC will provide evergreen shrubs measuring between 30" and 36" in height along 'Hanover Road NW' as per the Zoning Code.

Issue #9: Provide bicycle racks convenient to southern building.

Response: Design Plus, LLC will provide a bicycle rack in the landscape area adjacent to 'Business Unit 29'.

Issue #10a: Add a note to the lighting details specifying that all lighting will be in compliance with 14-16-3-9.

Response: The note has been added.

Issue #10b: The monument sign shall not be uplit. The applicant shall use sign lighting that meets the intent of the New Mexico Night Sky Protection Act.

Response: The monument sign shall not be uplit; Design Plus, LLC has revised 6 / A-101 to reflect this change and to ensure sign lighting meets the intent of the New Mexico Night Sky Protection Act.

Issue #11: Street trees shall be relocated to the planting strip between the sidewalk and Hanover road. This and all other planting areas shall achieve 80% live ground coverage at maturity.

Response: There is no planting strip between the existing sidewalk and Hanover road; the street trees do not need to be relocated. All planting areas shall achieve 80% live ground coverage at maturity.

Issue #12: Dumpster number and location shall comply with Solid Waste Management division requirements.

Response: Comment noted. Dumpster number and location shall be revised accordingly.

Issue #13: Revise Key Note 17 on page A100 to read, "Mechanical equipment to be screened by parapet".

Response: The note has been revised.

Issue #14a: Hanover shall be spelled correctly and consistently on all sheets. 'MW' shall be replaced with 'NW' on pages C100 and C101.

Response: Comment noted. The notes on sheets C100 and C101 have been revised.

Issue #14b: Use proper form of the word "than" in the last Note on page L100.

Response: The note has been revised.

Issue #14c: The number of parking spaces provided shall be revised on page L100.

Response: The number of parking spaces has been revised from 215 to 217 (as per A100). This change does not affect the number of required parking lot trees (22).

Issue #14d: Correct Proposed Conditions narrative on page C100. Replace "The natural lying along" with "The natural low-lying area along..."

Response: The narrative has been corrected.

Issue #14e: Incorporate Tract 3 into narrative on page C100.

Response: The revised "Conceptual Grading & Drainage Plan Narrative" we submitted to the Planning Department in our letter dated 5/4/07 shall be revised as follows: "The legal description is Tract #2 and #3 of the Correction Plat of MIRA MESA ESTATES, Tracts 217, 218, 219, and 220, Town of Atrisco Grant, Albuquerque, New Mexico".
