

I, Reza Afaghpour a registered professional engineer, have inspected the property at 317 Washington Street, SE (Lot 15-A). I, certify that the existing covered parking is metal construction and is structurally sound, see attached photos. I, further certify that there are two hour wall constructed between each unit, specially between unit 4 and 5. Please see attached construction plans for this site dated October 2006 for your reference. The two hour wall section is highlighted.

If you have any question regarding this certification please contact me at (505) 440-5597.
