SIGN POSTING AGREEMENT

REQUIREMENTS

POSTING SIGNS ANNOUNCING PUBLIC HEARINGS

All persons making application to the City under the requirements and procedures established by the City Zoning Code or Subdivision Ordinance are responsible for the posting and maintaining of one or more signs on the property which the application describes. Vacations of public rights-of-way (if the way has been in use) also require signs. Waterproof signs are provided at the time of application. If the application is mailed, you must still stop at the Development Services Front Counter to pick up the sign.

The applicant is responsible for ensuring that the signs remain posted throughout the 15-day period prior to public hearing. Failure to maintain the signs during this entire period may be cause for deferral or denial of the application. Replacement signs for those lost or damaged are available from the Development Services Front Counter at a charge of \$3.75 each.

LOCATION

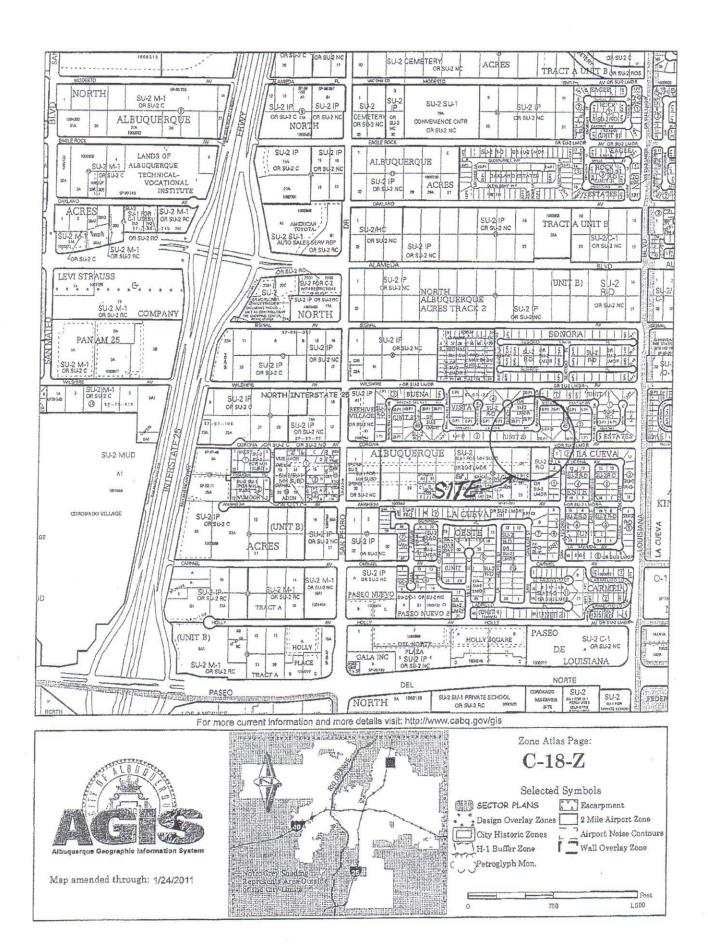

- A. The sign shall be conspicuously located. It shall be located within twenty feet of the public sidewalk (or edge of public street). Staff may indicate a specific location.
- B. The face of the sign shall be parallel to the street, and the bottom of the sign shall be at least two feet from the ground.
- C. No barrier shall prevent a person from coming within five feet of the sign to read it.

NUMBER

- A. One sign shall be posted on each paved street frontage. Signs may be required on unpaved street frontages.
- B. If the land does not abut a public street, then, in addition to a sign placed on the property, a sign shall be placed on and at the edge of the public right-of-way of the nearest paved City street. Such a sign must direct readers toward the subject property by an arrow and an indication of distance.

3. PHYSICAL POSTING

A. A heavy stake with two crossbars or a full plywood backing works best to keep the sign in

RE: Diane & Stepher. Husser (residence) 6516 Rancho Ladera Rd. NE Albuquerque, NM 87113-1990

- 1. My husband Steve has Parkinson and the doctor request us to put a pool in for therapy.
- 2. We pulled out our survey that we received when we purchased the house, the survey does not show an easement on the back of my property, the only easement is in the front (north side).
- 3. We call the proper companies to come out and mark our back yard before we dug, which is required by law. No one showed any utility lines in our back yard.
- 4. The pool company (BlueWater Pools) came out with the required permits and began to dig. Upon digging for the pool they came across a utility line, which they almost hit. The pool company immediately stopped digging and call out the utility company. Everyone including Qwest said that the line was not theirs. We had Qwest out 5 times and they stated the line was not theirs. We then had PNM out and the person that came out originally worked for Qwest for 20 years, she was the one that said it was a Qwest line and showed us their stamp on the line.
- 5. We then call Qwest out again and they told us that the line was probably not active, I made them confirm. This is when they said it was a live line.
- 6. I called the Title Company that I closed at and the survey company and told them that I would not have brought a house with 2 easements on it, nor was it disclosed at closing or on my survey. They asked me what we wanted and I told them I wanted the full easement vacated.
- 7. I contacted all of the utility companies and the city to make sure that I could have the easement vacated and I was told yes by all of the utilities and the city. At no time was I ever told that permits were need or that there would be an issue with vacating the easement.
- 8. I then contacted Qwest and had them move the line, and at no time was it ever disclosed to us that Qwest needed to pull permits and checked with zoning to move the line on the other side of our wall, which our yard backs up against another street (Corona).
- I contacted the other utilities too and paid for the vacating of easement from each utility except Qwest which needed to move the line.
- 10. Qwest was paid to move the line at my expense and the pool was completed, and now we find out that Qwest did not pull the proper permits or receive proper approval from the city.
- 11. Now I am being told by the city this was done incorrectly and that it is my issue. They are saying that the easement cannot be removed just in case they should ever need to do anything there. The zoning department said chances of the city needing the easement would be like winning the lottery. Now I am paying the price because of Qwest.
- 12. My point is that all of the utility companies have released the easement to me; all I am asking for is that the city do the same especially since according to zoning they would not need the easement.
- 13. All other public utilities have issue me a release of easement rights (see attached)

We would have never proceeded with any of this if we were giving proper information from the city and the utility companies. I am going to have a problem selling my house due to this error I will need to disclose any easement or encroachment issue. Secondly I don't think I should have to have any easement because I personally contacted the city. I can't believe that contractors and the utility companies can rip off law abiding citizens and that this would be okay with the city.

Lastly, I am begging for the full easement release since I had a similar situation back in Chicago. I wanted to put a garage on my property and my original survey did not show and easement. I had contacted the city and experienced exactly what is happening again. I had to receive an encroachment from the city, which caused problems when selling. Several years later we went to sell my house and had offers on it right away, but once the encroachment was found out by the prospective buyer, both deals fell through. It took over a year to sell my house because of the encroachment. Now you can see why I am begging for a full easement removal. We now need to sell our home because Steve needs to be treated by a specialist in North Carolina for his Parkinson Disease and now we have to disclose all of this. We actually have a buyer interested but they are only going to wait a short time for us to resolve this issue. Since we will be have huge medical bills we can't afford to lose any money on the sale of our home due to easement issues.

Thank you, Diane & Stephen Slusser 6516 Rancho Ladera Rd. NE Albuquerque, NM 87113-1990 (505) 270-3555 cell
