Let's try that, and only 10 sets – if we need more, we might try for reductions with an adjusted scale -

Jack,

We are working on an advertised DRB submittal for the referenced property and would like permission to submit 30x40 sheets rather than 24x36. This will help us provide more detailed information for the DRB's review. May we please submit using the larger sheet size?

Thanks,  
Chris
