

LETTER OF EXPLANATION TOYOTA ALBUQUERQUE – PROPOSED FENCE

Larry H. Miller Toyota, located in Albuquerque New Mexico proposes to add a wrought iron security fence to the perimeter of their site. This fence will replace an existing bollard & chain fence. New rolling gates will replace existing swinging gates at the existing site driveways. A 3' high fence is proposed along the front of the site and a portion of the West side of the site while an 8' high fence is proposed along a portion of the West side of the site and the North side of the site. An existing chain link fence will remain on the East side of the site.
