---

400 Eubank.  
Reviewed plan separately and discussed in zoning meeting.

Eubank and I-40 Walmart location. Requested change is to building/wall signage and color.  
Overall signage SqFt & façade is reducing. Signage is in same location and same type. This is more of a like-for-like swap, but does include slight changes.  
AA is recommended for tracking, but I don't believe it would trigger a major amendment.  
All documentation was provided from existing plan and proposed change.  
Justification letter was provided.  
Previous AA was provided.

I do not believe there are any issues for Transportation and Hydrology to review.  
Recommend approval on AA request.

Thank you,

Robert
