Traffic Impact Study - Comment Responses

3/17/2021

Comment Number	Comments	Comment Response
1	Describe Driveway C #4 that has restricted ingress and egress as a right-turn in/right-turn out driveway.	<i>Description of Driveway C revised.</i>
2	Year 2022 Build Traffic Volumes Driveway C, Intersection 4, remove the left turning traffic and add them to the right turn volume. The left turn is prohibited.	<i>Left turning volumes added to right turning volumes.</i>
3	The City recommends the extension of the raised median on San Pedro across from Driveway C by approximately 25 feet to the south to discourage the left turn movement from this driveway. Add this comment to the report as a recommendation by the City from citizen complaints.	<i>The existing median design was approved as part of the Master Commercial Development plan. The build out of the Whataburger does not propose any changes to the roadway or driveways in the area.</i>
4	The final version must be sealed by A New Mexico PE.	<i>Seal revised.</i>
