RE: MRMPO Comments for Development Review Board Applications Scheduled for December 18<sup>th</sup>, 2019

December 10<sup>th</sup>, 2019

The following staff comments relate to transportation systems planning within the Albuquerque Metropolitan Planning Area (AMPA). Principal guidance comes from the *2040 Metropolitan Transportation Plan* and the maps therein; *Transportation Improvement Program (TIP) for FFY 2016-2021*; the *Intelligent Transportation Systems (ITS) Regional Architecture*; and the *Roadway Access Policies* of the Transportation Coordinating Committee (TCC) of the Metropolitan Transportation Board (MTB).

### **Project #PR-2019-002184**

MRMPO commends the inclusion of low impact and green infrastructure principals in the proposed site design to supplement stormwater management and regional water quality/supply needs. The MTP and Long Range Transportation System Guide includes these as a recommended strategy for meeting a number of challenges related to projected climate change and transportation impacts.

For informational purposes:

- Juan Tabo Blvd is functionally classified as a principal arterial currently, and projected to be a community principal arterial in the Long Range Roadway System.
- Juan Tabo Blvd is an Intelligent Transportation System (ITS) Corridor. Please consult the reviewing agency's Traffic Engineering and/or ITS Department with any questions regarding ITS infrastructure.
