Sketch Plan Application Letter

Dear Planning Department,

I am writing to request a sketch plan review for a proposed AutoZone car parts retail store with parking lot at UPC 101005519247421175. The lot is currently vacant and has not been assigned an address to our knowledge. Would you please give us comment on the design of the attached site layout, as well as next steps to proceed with the permitting process?

Thank you.
