RE: Minor Amendment to Site Development Plan Approved Prior to the Effective Date of the IDO
Walmart Sam's Club, 10600 Coors Blvd. Byp. N.W.
Zone Atlas page A-13 & A-14, Project # 1007387, 1000081

Dear Mr. Brito:

Walmart Sam's Club requests approval of the application for a Minor Amendment to the Site Development Plan Approved Prior to the Effective Date of the IDO for the above referenced project. Walmart Sam's Club is seeking approval ONLY to paint the building exterior their new 'BRAND' colors as depicted on the enclosed color elevations sheet A2 dated 2/24/2020 & prepared by SGA Design Group.

Please find enclosed the following documents as required for the submittal review.

1. The official notification of decision letter dated November 19, 1999. The only condition addressing the exterior elevations is condition 10, which calls for an attractive elevation and paint to be graffiti proof.
2. July 2008 Approval: Sheet A2, Elevations, with Planning Signature date, 7/31/2008.
3. 2000 Original Approval: Sam's Club site plan sheet C3 signed by Planning on 3/2/00, and overall site plan sheet 1 signed by Planning on 3/2/00.

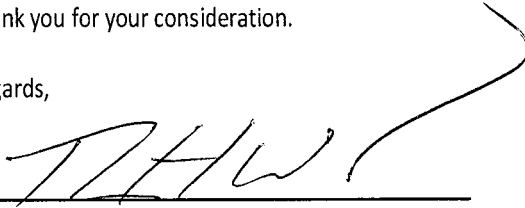

At the time, the Sam's Club building was first constructed; Sam's 'BRAND' color pallet was brown tones. Their new 'BRAND' colors are gray tones as shown on sheet A2 dated 2/24/2020 and prepared by SGA Design Group. Since the City does not regulate the exterior building colors and the original site plan documents and decision letter does not mandate the exterior colors, we believe the color change is a minor change and the 10% threshold identified in IDO Section 14-16-6-4 (Y)(1)(a) and Table 6-4-5 is not applicable.

We trust the enclosed documents satisfy the requirements for a Minor Amendment to the Site plan to change the exterior Sam's Club building colors and an approval can be granted.

Please send all correspondence regarding this request to our Architect. Contact Dan Backstrom on behalf of SGA Design Group (717-903-0808, danb@sgadesigngroup.com).

Thank you for your consideration.

Regards,
