Dear Mr. Stevenson,

We do not have copies of all of the neighborhood input and concerns that were sent to you on the proposed development. We are requesting all documents and emails sent to you per the May 6, 2020 direction from Scott Templeton, Seven Bar HOA President to Mike Mirabal. He stated, "Well I think the best way for you to communicate your concerns is directly with Engineering firm." Reiterating the same information at the May 8, 2020 informal neighborhood gathering that Richard Stevenson, PE with Tierra West, LLC. would be the point of contact to funnel the neighbors input and concerns.

We are requesting a copy of all the people who submitted input & concerns and the content of the content they sent to you through email with attached documents. Please feel free to contact us if you have questions.

Sincerely,,

Larry Sandoval
