LIST OF CHANGES PROPOSED TO THE ALBUQUERQUE RV STORAGE PROJECT

Dear Mr. Rodenbeck,

Included are a list of changes proposed for the Albuquerque RV Storage project #PR-2020-004757 that is conditionally approved with the City. This is in an effort to meet compliance with Waste Managements requested location of the Trash Enclosure, and DRC public infrastructure design requests. Additional minor site improvements have also been made for overall design improvements.

Per correspondence with Jay Rodenbeck this review will be listed under “**other matters**” for review. Below is a list of proposed changes to the conditionally approved site plan:

Summary of Changes

1. Layout to more accurately reflect the proposed building. Note that the official dimensions will be provided at Building Permit.
2. Relocation of the trash enclosure and update dimensions to meet Waste Management’s requirements.
3. Relocated internal RV Storage stalls within the interior of the site
4. Revised the water and sewer public main and private service lines per DRC request
5. Added additional curb and concrete valley gutter at the site entrance to aid in stormwater

We appreciate your review and approval of these plans. Please contact me at 720-647-6231 or Stephen.Litsas@kimley-horn.com should you have any questions.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

Stephen Litsas, P.E.
