Jessica,

One of my neighbors recently received communication from the applicant (developer Jay Rembe). He indicated he would like to meet to discuss a revision of the proposed development plans. Since this is a quasi-judicial process and we have an upcoming appeal hearing, is communication allowed between the applicant and appellants? We are open to hearing what Jay Rembe has to say, but our number one priority is making sure it does not have any impact on the upcoming appeal hearing.

Again, me and my neighbors are new to the process. We appreciate your patience and past detailed response.

Thanks,

Martin Vigil
