

# SENSITIVE LANDS ANALYSIS

The site plan amendment on the subject site would not disturb any sensitive lands identified by IDO Section 5-2(C), as outlined below:

- Arroyos: Not applicable because no arroyos exist on the subject property.
- Floodplains and Special Flood Hazard Areas: The subject property is within Zone X: Area of Minimal Flood Hazard per the FEMA Flood Map.
- Irrigation facilities (acequias): Not applicable as no acequias are located on the site.
- Large stands of mature trees: Not applicable as no large stands of mature trees exist on the site.
- Riparian area: Not applicable as no riparian areas exist on the site.
- Rock outcroppings: Not applicable as no rock outcroppings exist on the site.
- Significant archaeological sites: Not applicable as no significant archaeological sites exist on the site per the Archaeological Certificate.
- Steep slopes and escarpments: No steep slopes or escarpments exist on site.
- Wetlands: Not applicable as no wetlands exist on site.

Site photos illustrate the lack of sensitive elements on the site.
