7601 Jefferson St NE Suite 100
Albuquerque, NM 87109

Dear Mr. Gleason:

This letter follows earlier communication from the Mesa del Sol Architectural Review Committee (ARC) concerning the Woodbury Project. We acknowledge and thank you for your previous responses to our questions.

With exception to the colors, which we ask to be submitted for separate approval, the revised Submittal Package Drawings for the Woodbury Project as provided (project number 22-0148 dated 4/28/2023) are **Approved**. Also, as discussed and without resubmitting, we approve a revised glass facade on both buildings A and B at the University entrance that would be similar if not identical to the opposite corners of these two buildings in lieu of the balconies as shown.

Sincerely,

MESA DEL SOL ARC

A handwritten signature in cursive script that reads "Jerome Gonzales". The ink is black and the signature is fluid and legible.

Jerome Gonzales,
Director of Operations, Mesa del Sol
