EW,

Please note, ADR's role in this Application Process is complete. Any additional or supplemental information should be submitted directly the DHO. During our Facilitated Meeting, Mr. Rodenbeck provided instructions for supplemental submittals to DHO. I respectfully defer any questions regarding DHO submittals to Mr. Rodenbeck. If you have remaining concerns, I would also respectfully invite you to participate in the DHO hearing. That is your best opportunity to self-advocate through argument.

Sincerely,

TRH

Forgot another error in the Facilitated Meeting Report--regarding notification failures.

The posted signs around the site contained incorrect information about the **DHO hearing**.

There are inconsistencies and errors:

1. Both 55 and 57 are given as the number of houses in the report.
2. The intersection of Maiden Grass & Ouray was identified as the main intersection of interest with regard

- to traffic impact. This is not reflected in the report.
3. My recollection is the the house setback from the rear-lot line on the western side of the subdivision was said to be 45 feet. The report indicates 30' to 45'.
 4. The Notification Failures items are incorrect. There was not a delay in notifying SRMNA. The delay was in notifying WSCONA. **There was a specific request during the facilitated meeting that issue of notifications have been problematic be put in the report.** This did not occur. ONC has been erroneously excluding WSCONA from notification lists.
 5. The statement in the report regarding appearance of partiality is woefully deficient and suspect.
 6. Incorrect information is false information. There was a comment from the chat that addressed this and raised the concern of other information being wrong. We were advised that comments would be incorporated.
 7. Has the deadline passed for submitting written comments? The facilitated meeting report was not provided until Friday afternoon, and it came from Mr. Hummel. My recollection is that, in previous facilitated meetings, the facilitator provided the report directly to the participants. The neighborhood participants are not included in the recipient list of this report. Please explain.
