In case I cannot attend, please note

Eezee fiber started marking then tearing up my neighborhood in mid February.

As of today, June 5, 2025, their work remains incomplete. Concrete patching is incomplete. Reseeding yards is incomplete. There continue to be holes in the street. One hole is at least two feet deep, over a gas line. I have reported to the city, the gas company, the fiber company, multiple times over the past month. N.O.T.H.I.N.G. has been done. The deep hole in the street is a hazard, and a great place to start a sinkhole.

I have walked the neighborhood with eezee representatives, again nothing has happened, but I got some more numbers to call. Really?

My taxpayer dollars not at work. Very frustrating.
