

ADDENDUM 1

Also included on a CD in Map Pocket

TABLE OF CONTENTS

EXECUTIVE SUMMARY

MAP POCKET CONTAINS:

Figure 4-1 Existing Conditions SWMM Modeling Resultsmap pocket

Figure 6-1 Proposed Drainage Facilities SWMM Modeling Results.....map pocket

CD In Map Pocket Contains:

SWMM Model - Existing Conditions

SWMM Model - Option 51

PDF's of All Addendum 1 information Excluding : SWMM model (digital files)

ADDENDUM 1 - TECHNICAL BACKUP DATA

APPENDIX A1 SWMM MODEL RESULTS

Table A1.1 Summary of Existing Conditions Street Ponding and Manhole Flooding

Table A1.2 Existing Conditions Detention Pond Routing Summary

Table A1.3 Feasibility Summary to Remove FEMA Floodplains

Table A1.4 Summary of Option 51 Street Ponding and Manhole Flooding

Table A1.5 Option 51 Detention Pond Routing Summary

Existing Conditions SWMM Model Output

Future Conditions Option 51 SWMM Model Output

APPENDIX A2 SWMM MODEL INPUT DESCRIPTION AND DATA

SWMM Modeling Approach Description

Table H Documentation of URS Inc. North Flow Hydrograph and Translation to Match SEC Hydrograph Timing

Figure H Documentation of URS North Flow Hydrograph and Translation to Match SEC Hydrograph Timing

Table MA Elev.-Area-Capacity Data for Option 51 Marble –Arno Pond

Table TJ Elev.-Area-Capacity Data for Option 51 Tijeras Pond

Table SP-A1 Street Ponding Surface Area

APPENDIX A3 RECOMMENDED OPTION 51 AND ASSOCIATED FACILITIES - QUANTITY AND COST ESTIMATES

Facility 2.1 Purchase Marble-Arno Pond Property

Facility 2.2 Build Marble-Arno Pond

Facility F14.1 Purchase Tijeras Pond Property

Facility F14.2 Build Tijeras Pond and Inflow / Outflow Pipes

Facility F14.3 Build Storm Drain Outfall From Tijeras Pond Outflow to Marble-Arno Pond

APPENDIX A4 AS-BUILTS

(Along Broadway from near Central to Lomas-Broadway Intersection)
