

Summary of Stillwater Elevations (FIS) report that accompanies this FIRM represent intended for flood insurance purposes. Elevations shown in the FIS report should be used for purposes of construction and/or

apply only landward of 0.0' from the FIRM. Elevation markers of this FIRM should be used in the Summary of Stillwater Elevations for this jurisdiction. Elevations shown in the FIS report should be used for purposes of construction and/or

cross sections and interpolated on hydraulic considerations for insurance purposes. Floodway boundaries shown in the Flood Insurance

may be protected by "flood protection measures" of the flood control structures for this

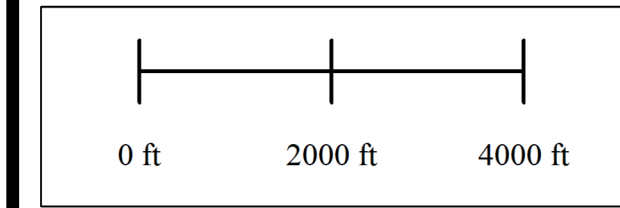

New Mexico State Plane, NAD 83, GRS80 spheroid. The State Plane zones used in the map result in slight positional differences. These differences do

the North American Vertical Datum compared to structure and local datum. For information, the National Geodetic Survey of 1929 and the National Geodetic Survey
