Re: CLOMR Case No. 21-06-3356R
Los Diamantes Subdivision – Rainbow Tributary

To Whom it May Concern:

This letter summarizes the Biological Assessment (BA) determination completed for the Los Diamantes Subdivision, a Non-Federal Project, for the processing of a conditional letter of map revision (Case No. 21-06-3356R). It is my opinion that Sites Southwest, LLC's report dated March 2015 and entitled Biological Assessment, Los Diamantes Subdivision, City of Rio Rancho, Sandoval County, New Mexico documents compliance with the Endangered Species Act and provides written justification by the requestor that a "Take" (meaning to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to engage in any such conduct) has no potential to occur to threatened and endangered species as a result of the project, as described in the BA.

Should you have any questions or require additional information, please do not hesitate to contact me at (505) 828-2200.

Respectfully,

Mark Goodwin & Associates, PA
