Overall Site Issues

A list of corrective actions will be supplied with this inspection.

	BMP/activity	Implemented?	Maintenance Required?	Corrective Action Needed and Notes.
1	Are all slopes and disturbed areas not actively being worked properly stabilized?	Yes		
2	Are natural resource areas (e.g., streams, Arroyos, mature trees, etc.) protected with barriers or similar BMPs?	Yes		
3	Are perimeter controls and sediment barriers adequately installed (keyed into substrate) and maintained?	Yes		
4	Are discharge points and receiving waters free of any sediment deposits?	Yes		
5	Are storm drain inlets properly protected?	Yes		
6	Is the construction exit preventing sediment from being tracked into the street?	Yes		
7	Is trash/litter from work areas collected and placed in dumpsters?	Yes		
8	Are washout facilities (e.g., paint, stucco, concrete) available, clearly marked, and maintained?	Yes		

	BMP/activity	Implemented?	Maintenance Required?	Corrective Action Needed and Notes.
9	Are vehicle and equipment fueling, cleaning, and maintenance areas free of spills, leaks, or any other deleterious material?	Yes		
10	Are materials that are potential storm water contaminants stored inside or under cover?	Yes		
11	Are non-storm water discharges (e.g., wash water, dewatering) properly controlled?	No		
12	Has the Site map been updated to reflect current conditions?	Yes		The map has been updated.
13	Is the NOI posted	Yes		NOI Posting Location: Project sign at entrance
14	Were previous corrections made within 7 days of last inspection or before the next storm event?			
15	(Other)			

Walk through the facility and look for signs of pollution including paint, solvents, chemicals, solid waste, oil, and fuel.			
1	Are there any signs of hazardous materials being exposed to storm water runoff?	No	
2	Have there been any reportable quantities releases of hazardous materials?	No	

CERTIFICATION STATEMENT

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."

Re: Drainage Ordinance (14-5-2-1) Violations for Erosion and Sediment Control

Dear Mr. Griego,

The following violations were observed at today's inspection.

1. A drainage inlet required protection.
2. The silt fence was not buried, bulging and was torn along Fineland Dr. and too much dirt behind the silt fence.
3. Sediment was observed in the gutter pan of Fineland Dr.

Photos are shown below:

Drainage inlet requires protection.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

CITY OF ALBUQUERQUE

Silt fence gap and silt fence is torn.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

Silt fence bulging. Too much dirt behind the silt fence.

CITY OF ALBUQUERQUE

Silt fence bulging, too much dirt behind silt fence and sediment in the gutter.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

Required Mitigation:

1. Provide protection of the inlet shown in the picture.
2. For the location where the silt fence is not buried the silt fence can be reinstalled so it is buried or a filter sock(s) can be placed at the bottom of it.
3. Where the silt fence is torn, it can be mended, the silt fence reinstalled or a filter sock(s) placed at the bottom of it.
3. Remove sediment from behind the silt fence/curb where the silt fence is bulging. A sediment BMP is required along Finland Dr. Options are: install silt fence/filter socks or lower grade a minimum of 2 inches below top of curb.

If violations are not mitigated within 30 days, the property owner is subject to a fine of \$500/day per the City's Drainage Control Ordinance.

If you would like to schedule a follow-up inspection at a day and time of your convenience, prior to 30 days from the date of this letter please let me know.

If you have any questions, you can contact me at 924-3420.

Sincerely,

Curtis Cherne, P.E.

**Re: McMahon Property Temporary Mass Grading
Erosion and Sediment Control Plan
Engineer's Stamp Date 6-16-17 (A11E016)**

Dear Mr. Goodwin,

Based upon the information provided in your submittal received 6-16-17, the above referenced plan is approved to be included in the SWPPP and to apply for an ESC Permit for grading, with the following condition:

1. The silt fence poles are to be spaced a maximum of 10 feet apart on the straight runs with closer pole spacing (depends on radius) around the corners on the downhill side.

Please revise detail for future submittals.

Please pass on to the owner that depending on how long this site remains graded dirt (no permanent improvements) and if vegetation doesn't grow they may be asked to stabilize (Hydromulch or similar) it at a later date.

If you have any questions, you can contact me at 924-3420.

Sincerely,

Curtis Cherne, P.E.
