Subject: FW: Church Alive Administrative Amendment

See my approval for Church Alive below. I got a message that they could not get building permit because AMAFCA had not approved the plan. Maybe it did not make it into the file.

Subject: Church Alive Administrative Amendment

Lynn: Church Alive wants to install a few portable classrooms next to their building (please see attached AA site plan). The site is near the corner of Irving & Golf Course (ZAP B-12). Curtis has asked for you to review this since the portable buildings will result in a small increase in impervious area (see attached planning comments).

When this project was approved back in 2002, the flowrates for the discharge point to the Calabacillas were based on fully developed conditions (called Phase 2 on the plan). The addition of these portable classrooms results in much less impervious area than the full Phase 2 development.

Please let me know if you have comments or questions, or if you need additional information. If everything looks OK to you, then please let Curtis know that.

Thank you,

Lynn,

I don't have the Phase 2 plan.

As this is your outfall, I will leave it up to you whether you want a grading and drainage plan for the addition of the portables.
