

EIGHT 14
SOLUTIONS
EROSION CONTROL & ENVIRONMENTAL CONSULTING

08/25/2020

This letter serves to delegate responsible authority for temporary and final stabilization activities on properties owned by several parties. The property owners include SBS Construction and Engineering, LLC, (SBS) Novus Properties, and Azaan Holdings.

SBS excavated dirt and constructed a stockpile on an adjacent property owned by Novus Properties (Tract A-2-B-1, shown on attached drawing). Azaan Holdings used dirt from this stockpile for their construction activities on Tract A-2-B-2. Temporary best management practices (BMPs) around the stockpile will be implemented by SBS. Final stabilization meeting requirements stated in Section 2.2.14 of the Construction General Permit (CGP) will be performed by SBS. The stockpile will be shown on the Temporary Erosion and Sediment Control Plans (TESCP) of both SBS and Azaan Holdings.

Azaan Holdings is responsible for constructing two temporary sediment ponds, tie in slopes, swales, and ditches on property belonging to Novus Properties (Tract A-2-B-1). Azaan Holdings will be responsible for all temporary and final stabilization measures meeting CGP requirements on this property (shown on attached TESCP). Novus Properties will not stop the work performed by Azaan Holdings.

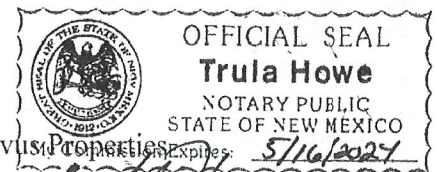

Property northwest of the Azaan Holdings property (Tract A-2-B-1, owned by Novus Properties) will be used to build an access road. Azaan Holdings will be responsible for all temporary and final stabilization measures meeting CGP requirements on this property (shown on attached TESCP). Novus Properties will not stop the work performed by Azaan Holdings.

Any additional work performed by Azaan Holdings on Novus Properties property will be shown on the Azaan Holdings TESCP and stabilized to meet CGP requirements.
