RE: LOT 38 - RICHFIELD PARK SUBDIVISION (C17-D2A28)

Dear Mr. Montoya:

Per our telephone conversation today, I am sending you this information with reference to the subject property.

The item in question is the elevation of the north drivepad. The north drivepad was designed to drain the property. In order to do so, it was necessary to have the north drivepad be at a very even grade, but have enough slope to drain the site. We have provided for the site to drain with a slope of approximately 1%. The upstream drainage area to the street at this location is approximately 2.08 acres. This should contribute no infiltration into the property other than that is already happening at the existing drainage easement located at the north end of the property. The grades were matched at this location.

If you have any other questions, please feel free to contact me at 828-2430.

Sincerely,

MCDOWELL ENGINEERING, INC.

RE: DRAINAGE PLAN FOR LOT 38 RICHFIELD PARK SUBDIVISION (C17-D2A28) ENGINEER'S STAMP DATED 8/4/97

Dear Ms. McDowell:

Based on the information provided on your August 5,1997 submittal, the above referenced site is approved for Site Development Plan for Building Permit.

Please be advised that prior to Building Permit release, the following concerns must be addressed:

- 1. Finish floor to full mean sea level designation.
- 2. Top of curb and flow line elevations on Adams St..
- 3. Identify the slope on each swale.

If I can be of further assistance, please feel free to contact me at 924-3986.
