Requests for approvals of Site Development Plans and/or Subdivision Plats shall be accompanied by a drainage submittal. The particular nature, location and scope of the proposed development define the degree of drainage detail. One or more of the following levels of submittal may be required based on the following:

- 1. Conceptual Grading and Drainage Plan:** Required for approval of Site Development Plans greater than five (5) acres and Sector Plans.
- 2. Drainage Plans:** Required for building permits, grading permits, paving permits and site plans less than five (5) acres.
- 3. Drainage Report:** Required for subdivisions containing more than ten (10) lots or constituting five (5) acres or more.

Engineer's Stamp dated 8-02-04 (C18-D23)**

Dear Mr. Sabay,

Based upon the information provided in your submittal received 8-03-04, the above referenced plan cannot be approved for Building Permit until the following comments are addressed:

P.O. Box 1293

Albuquerque

New Mexico 87103

www.cabq.gov

1. The work outside the right of way must be built through the work order process. Therefore, a SO-19 permit is not needed.
2. Inverts must be provided for the proposed 12" RCP.
3. Please address offsite flows.
4. The orifice plate must be placed at the 12" RCP.
5. Define the extents of the existing ditch shown along Signal Avenue
6. Provide additional spot elevations within the southern half of the lot to demonstrate how the flow will reach the pond. Currently, the flow appears to pond along the sides of the building.

If you have any questions, you can contact me at 924-3986.

Sincerely,

Bradley L. Bingham, PE
Principal Engineer, Planning Dept.
Development and Building Services
