Re: LOMR for La Cueva Arroyo East of Barstow

Dear Mr. Dourte:

Please be advised that AMAFCA has authorized Resource Technology Inc. to continue their work on the subject FEMA LOMR submittal given the recent bankruptcy filing by Llave Homes. A copy of that authorization is attached for your records. I have taken this action to keep the submittal moving and to not miss the 60 day response period for the last round of FEMA comments. Missing the response period would revert this to a brand new submittal with the attendant review fees.

Please be further advised that AMAFCA intends to seek reimbursement of these costs through the remaining financial guarantees held by the City for the various subdivisions done in association with the arroyo project.

AMAFCA requests that you notify the guarantee holders of our intent to seek reimbursement of this cost via these financial guarantees held by your office.

Please call if you have any questions or comments.

Sincerely,
AMAFCA

John P. Kelly, P.E.
Executive Engineer

Cc Mr. Bob Keeran, Llave Homes
