RE: Approved Programmatic Permit #0455-P

Dear Mr. Guzman,

Based on the application received by the Air Quality Program (AQP) on May 22, 2020, the AQP has deemed your application complete and is hereby issuing your Fugitive Dust Control Programmatic Permit.

This permit covers routine maintenance or routine ongoing active operations on existing land or facilities, at single or multiple locations, which does not include full depth reconstruction of a roadway or substantial removal and replacement of a manmade facility. Programmatic permits are issued to address work activities that result in similar earth moving or surface disturbance activities and utilize similar fugitive dust abatement strategies.

Programmatic permits are valid for up to five years and the permittee shall pay an annual fee for each year covered by the programmatic permit. Receipt by the department of subsequent annual fees shall result in an automatic renewal of the programmatic permit. The term of each programmatic permit will be from July 1st through the following June 30th. A new permit application shall be required every five years or earlier if the surface disturbance activities or fugitive dust abatement strategies are modified.

Enclosed is your approved Fugitive Dust Control Programmatic Permit #0455-P for Rosa Parks Rd NW & Kimmick Dr NW Stockpile, near the northwest corner of Rosa Parks Rd NW & Kimmick Dr NW, Albuquerque, New Mexico.

If you have any questions, please contact me at (505) 239-7094 or epomo@cabq.gov.

Sincerely,

Elizabeth M. Pomo, MPH
