---

Please reconfigure ADA access from the public ROW. We require a 6 ft. ADA access, but 4ft. minimal. Please resubmit when reconfigured.

Thank You,

Gary Sandoval  
Engineer  
City Traffic Planning Department  
505-924-3675

Armando, Ron, & Alexander,

I just returned the call from Gary Sandoval (see below) and left him a message letting him know that I had forwarded the most recent comments to you, as you are the one doing the site plan and I don't have the authority to change anything (along with not having the duties to design the site). Let me know if any of you would like to talk to him and I can give him your number, or you can just call him. Please keep me updated on any changes I need to make to the TCL plan and the G&D plan.

Thanks,

Jackie S. McDowell, PE

Please contact me regarding the TCL submittal. The ADA access from the public ROW does need to be reconfigured.

Thank You,

Gary Sandoval
