Re: Partial Grading and Drainage Certification, Lots 21, 23-28 Sevilla @ Andalucia
DRB Case No. 1000965 (File: F11D015C)

Dear Rita:

We are submitting a partial grading and drainage certification for Sevilla @ Andalucia. The partial certification includes Lots 21, 23-28. Enclosed for your review is the approved grading and drainage plan dated 2/19/15. These lots have been graded; retaining walls, curb and gutter, pavement and downstream infrastructure have been constructed. The remaining lots on the north side of Sevilla Ave have been graded, but the retaining walls have not been completed. The remaining lots will be certified once construction of all improvements has been completed.

After reviewing these as-built elevations and visiting the site on 10/15/15 it is my belief that the above lots have been graded in substantial compliance with the approved grading and drainage plan and that the interim drainage improvements allow runoff to be managed in the interim condition.

Your review and approval is requested for Building Permit Approval for the above listed buildings. I appreciate your time and consideration. If you have questions or require additional information, please contact me at 823-1000.

Sincerely,

Yolanda Padilla Moyer, P.E.
