Bank Stabilization
Grading and Drainage Plan
Engineers Stamp Date 4/11/19 (F22D028)**

Dear Mr. Nemeth,

Based upon the information provided in your submittal received 4/11/19, this plan is in compliance with FEMA regulations, with the placement of sediment fences in a floodplain.

PO Box 1293

When completed please advise me upon completion and provide a copy of the as-builds for our records.

Albuquerque

It is imperative that the floodplain is maintained (as close as possible) to its original natural design, that is along with the placement of the sediment fences.
