Re: Cinnamon Morning - 2700 Rio Grande Blvd NW
Grading and Drainage Plan and Drainage Report
Engineer's Stamp dated: 3/19/2019 (G12D024)

Dear Ms. Hoelzer,

Based upon the information provided in the submittal received on 3/20/2019 the above-referenced plan can't be approved for Site Plan, Preliminary Plat, Work Order, or Grading Permit until the following are addressed.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

A Flat Grading Scheme, per DPM 22.5.G, is proposed which must include a block wall around the perimeter and onsite retention of the 100 year 10 day volume.

Prior to Site Plan approval:

1. A block wall must be shown and labeled on both the G&D Plan and the Site Plan. Include a typical cross-section of the wall showing the proximity to the property line and the existing and proposed grades. It is still not clear where the new block wall will be constructed to prevent cross lot drainage and where the existing wall already prevents cross lot drainage. The adjacent property to the north is more than 8" higher than the finished grades onsite so the wall may need to be several courses high. Typical sections of the wall are still needed including existing and proposed grades, maximum grade change across the wall, and the offset from the footer to the property line to insure that there is not any encroachment into neighboring property. Written permission from neighbors will be required for any encroachment into neighboring property. Identify whether existing perimeter fences are to remain and where they are to be removed and replaced.
2. The hatch pattern at the edge of the pond must be identified and added to the legend. There are still not any notes on either the G&D Plan or the Site Plan to identify what the symbol represents.

Additional comments for the Plat are as follows:

3. The perimeter wall, ponds, and an engineer's certification must be shown as private drainage infrastructure on the Infrastructure List. The footnote looks good but there must also be a line item in the main body of the IL for an "Engineer's Certification prior to Release of Financial Guarantees".
4. Drainage easements must be shown on the plat for all ponds using the standard plat language found on the Hydrology Section web page. The note must be on the Preliminary Plat prior to approval and the "Drainage Easements" must be clearly labeled. Don't include Section 4B of the standard note and delete the words in brackets.

As a reminder, if the project total area of disturbance (including the staging area and any work within the adjacent Right-of-Way) is 1 acre or more, then an Erosion and Sediment Control (ESC) Plan and Owner's certified Notice of Intent (NOI) is required to be submitted to the Stormwater Quality Engineer (Curtis Cherne, PE, ccherne@cabq.gov, 924-3420) 14 days prior to any earth disturbance.

If you have any questions, please contact me at 924-3986 or e-mail at jhughes@cabq.gov .

Sincerely,

James D. Hughes, P.E.

Re: Cinnamon Morning - 2700 Rio Grande Blvd NW
Grading and Drainage Plan and Drainage Report
Engineer's Stamp dated: 1/16/2019 (G12D024)

Dear Ms. Hoelzer,

Based upon the information provided in the submittal received on 2/02/2019 the above-referenced plan can't be approved for Site Plan, Preliminary Plat, Work Order, or Grading Permit until the following are addressed.

PO Box 1293

Albuquerque

NM 87103

www.cabq.gov

A Flat Grading Scheme, per DPM 22.5.G, is proposed which must include a block wall around the perimeter and onsite retention of the 100 year 10 day volume.

Prior to Site Plan approval:

1. A block wall must be shown and labeled on both the G&D Plan and the Site Plan. Include a typical cross-section of the wall showing the proximity to the property line and the existing and proposed grades.
2. Existing spot elevations must be added on the adjacent property at each of the lot corners.
3. The hatch pattern at the edge of the pond must be identified and added to the legend.

Prior to Preliminary Plat, Grading Permit and Work Order approval:

4. The emergency spillway appears to be through Los Amigos Drive into Rio Grande Blvd. and should be sized for the peak 100 year inflow into the pond. Weir depth calculations are required on the G&D Plan to identify the emergency overflow elevation which must be lower than the Top of Pond.

Additional comments for the Plat are as follows:

5. The perimeter wall, ponds, and an engineer's certification must be shown as private drainage infrastructure on the Infrastructure List. Drainage easements must be shown on the plat for all ponds using the standard plat language found on the Hydrology Section web page.
6. Drainage easements must be shown on the plat for all ponds using the standard plat language found on the Hydrology Section web page.

As a reminder, if the project total area of disturbance (including the staging area and any work within the adjacent Right-of-Way) is 1 acre or more, then an Erosion and Sediment Control (ESC) Plan and Owner's certified Notice of Intent (NOI) is required to be submitted to the Stormwater Quality Engineer (Curtis Cherne, PE, ccherne@cabq.gov, 924-3420) 14 days prior to any earth disturbance.

Re: Cinnamon Morning 2700 Rio Grande Blvd NW
Engineers stamp date 3-18-19 (G12 / G024)

Dear Mr. Hughes:

In response to your February 14 comment letter,

SITE PLAN

1. *Along the south property line there is an existing CMU wall that will remain as the property boundary. Along the east property line there is an existing wire fence. Along the north property line there is a combination of CMU stucco wall, coyote fence and wire/wood fence. Under proposed conditions, the entire north and east boundary will have at a minimum an 8" CMU filled flood wall. This will prevent any potential for cross lot drainage between adjacent properties. In the areas where there is no fencing the typical coyote fence as show on the Site Plan and Grading and Drainage Plan will be constructed. In the areas along the north boundary where there is an existing solid wall barrier, no additional wall construction is required. A special note to this affect has been added to the Site Plan and the Grading and Drainage Plan.*
2. *A few additional spot elevations on the adjacent properties have been added to the grading plan. This whole area is rather flat so no additional existing spots should be necessary.*
3. *Okay.*
4. *As we discussed on the phone, it is not possible to create an overflow spillway for this project. The site has been lowered considerably in an effort to balance the required earthwork. As an alternative design, an 8" CMU concrete filled flood wall has been added to the drainage plan to prevent any offsite/onsite cross lot drainage. In addition, a 1.0 foot water block at the entrance road is created to prevent any drainage from Rio Grande Blvd from entering the site. In addition, there is almost twice the required capacity available in the retention pond.*
5. *A note has been added to the infrastructure list. The drainage language will be placed on the final plat prior to recordation. A templated for the required language on the final plat is in this report right after the 11x17 preliminary plat exhibit.*
6. *A blanket drainage easement has been added to Tract A.*
7. *Okay, an Erosion and Sediment control plan will be prepared prior to any earthwork.*

Please call me if you have any questions.

Sincerely,

MARK GOODWIN & ASSOCIATES, P.A.

Diane Hoelzer, PE
Senior Engineer

DLH/dlh
f:\\16051/ Cinnamon Morning response letter.docx

I. PROJECT DESCRIPTION

The Cinnamon Morning project site is located east of Rio Grande Blvd. between Candelaria and Indian School Road. The site covers an approximate area of 2.5 acres. The two buildings located in the far southwest corner of the site are to remain and will be separated out from the cluster development community. All other existing buildings on the site will demolished. This includes all the existing buildings adjacent to the north property boundary and the large rectangular building located in the center of the site adjacent to the south property boundary.

The project site is bounded by Rio Grande Blvd. to the west, partial open space corridor with a natural ditch to the east, and residential developments to the north and south.

This property is zoned R-A which allows for Cluster Development community (per section 4-3(B)(2). The portion of the parcel to be used as the cluster development is 1.9 acres and will consist of 7 residential lots, a private gated road and common open space area. The remaining 0.6 acres will consist of the existing home and a public road that will connect to the private road.

II. DESIGN CRITERIA AND PREVIOUS DEVELOPMENT

The design criteria used in this report was in accordance with Section 22.2 Hydrology of the Development Process Manual, Volume 2, Design Criteria, Latest edition. The 100-year 6-hour storm event was analyzed to determine street capacities using P(1 hr)=1.72", P(6 hr)=2.20" and P(24)=2.48". The onsite Land Treatment values used were based on Table A-5, in the DPM. The retention pond located in Tract A was sized for the 100 year-10 day storm event.

III. EXISTING DRAINAGE CONDITIONS

The entire project site is basically flat, varying in elevation by less than a foot, with the exception of a 2' high landscape buffer located adjacent to Rio Grande Blvd. There are three oval shaped landscaped areas that appear to be slightly depressed in the middle of the property that capture onsite runoff. It does not appear that any offsite flows enter the project site from any direction.

IV. DEVELOPED DRAINAGE CONDITIONS

Under developed conditions, all runoff from the cluster development, including from lots 1 through 7 and the private and public Los Amigos Road will be conveyed through surface street flow to the retention pond located on Tract A. The retention pond is designed to contain runoff from the 100 year 10 day storm with a maximum WSEL at 4963.51'. The 100 year 6 hour volume is contained at an elevation of 4963.12'. There is a 5 foot wide bench around the perimeter of the pond with an elevation that varies from 4967.0 along the northern boundary and then down to 4965.0' along the southern boundary'.

Lot 8 and the existing home that is being subdivided from the cluster development will remain as-is unchanged. Since all runoff from the site is remaining on the site, first flush is taken care of in the retention pond.

DEVELOPMENT REVIEW BOARD (D.R.B.) REQUIRED INFRASTRUCTURE LIST

CINNAMON MORNING
PROPOSED NAME OF PLAT AND/OR SITE DEVELOPMENT PLAN

Remaining Portion of Lot 3, Alvarado Gardens, Unit No. 1
EXISTING LEGAL DESCRIPTION PRIOR TO PLATTING ACTION

Following is a summary of PUBLIC/PRIVATE Infrastructure required to be constructed or financially guaranteed for the above development. This Listing is not necessarily a complete listing. During the SIA process and/or in the review of the construction drawings, if the DRC Chair determines that appurtenant items and/or unforeseen items have not been included in the infrastructure listing, the DRC Chair may include those items in the listing and related financial guarantee. Likewise, if the DRC Chair determines that appurtenant or non-essential items can be deleted from the listing, those items may be deleted as well as the related portions of the financial guarantees. All such revisions require approval by the DRC Chair, the User Department and agent/owner. If such approvals are obtained, these revisions to the listing will be incorporated administratively. In addition, any unforeseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility will be required as a condition of project acceptance and close out by the City.

LEGAL DESCRIPTION

A tract of land situate within the Town of Albuquerque Grant, projected Section 1, Township 10 North, Range 2 East, New Mexico Principal Meridian and projected Section 6, Township 10 North, Range 3 East, New Mexico Principal Meridian, within M.R.G.C.D. Map No. 34, City of Albuquerque, Bernalillo County, New Mexico, being the REMAINING PORTION OF LOT 3, ALVARADO GARDENS, UNIT NO. 1, as the same is shown and designated on said plat, filed for record in the office of the County Clerk of Bernalillo County, New Mexico, on May 15, 1932, in Volume C02, Folio 010, and containing 2.5103 acres more or less.

SOLAR NOTE

No property within the area of requested final action shall at any time be subject to a deed restriction, covenant or binding agreement prohibiting solar collectors from being installed on buildings or erected on the lots or parcels within the area of this plat.

DISCLAIMER

In approving this plat, Public Service Company of New Mexico (PNM), New Mexico Gas Company (NMGC) and Qwest Corporation dba CenturyLink QC did not conduct a title search of the properties shown hereon. Consequently, PNM, NMGC and CenturyLink do not waive or release any easement or easement rights, which may have been granted by prior plat, replat or other document, and which are not shown on this plat.

NOTES

1. Bearings are grid based on the New Mexico State Plane Coordinate System (Central Zone).

PLAT
FOR
CINNAMON MORNING CLUSTER DEVELOPMENT
WITHIN
THE TOWN OF ALBUQUERQUE GRANT
PROJECTED SECTION 1, TOWNSHIP 10 NORTH, RANGE 2 EAST, N.M.P.M.
AND PROJECTED SECTION 6, TOWNSHIP 10 NORTH, RANGE 3 EAST, N.M.P.M.
M.R.G.C.D. MAP No. 34
CITY OF ALBUQUERQUE
BERNALILLO COUNTY, NEW MEXICO
JANUARY, 2019

PUBLIC UTILITY EASEMENTS (PUE) shown on this plat are granted for the common and joint use of:

Public Service Company of New Mexico ("PNM"), a New Mexico corporation, (PNM Electric) for installation, maintenance, and service of overhead and underground electrical lines, transformers, and other equipment and related facilities reasonably necessary to provide electrical services.

New Mexico Gas Company for installation, maintenance, and service of natural gas lines, valves and other equipment and facilities reasonably necessary to provide natural gas services.

Qwest Corporation D/B/A CenturyLink QC for the installation, maintenance, and service of such lines, cable, and other related equipment and facilities reasonably necessary to provide communication services.

Comcast D/B/A Xfinity for the installation, maintenance, and service of such lines, cable, and other related equipment and facilities reasonably necessary to provide Cable services.

Included, is the right to build, rebuild, construct, reconstruct, locate, relocate, change, remove, replace, modify, renew, operate and maintain facilities for purposes described above, together with free access to, from, and over said easements, with the right and privilege of going upon, over and across adjoining lands of Grantor for the purposes set forth herein and with the right to utilize the right of way and easement to extend services to customers of Grantee, including sufficient working area space for electric transformers, with the right and privilege to trim and remove trees, shrubs or bushes which interfere with the purposes set forth herein. No building, sign, pool (aboveground or subsurface), hot tub, concrete or wood pool decking, or other structure shall be erected or constructed on said easements, nor shall any well be drilled or operated thereon. Property owners shall be solely responsible for correcting any violations of National Electrical Safety Code by construction of pools, decking, or any structures adjacent to or near easements shown on this plat.

Easements for electric transformer/switchgears, as installed, shall extend ten (10) feet in front of transformer/switchgear doors and five (5) feet on each side.

Disclaimer

In approving this plat, Public Service Company of New Mexico (PNM), New Mexico Gas Company (NMGC) and Qwest Corporation D/B/A CenturyLink QC did not conduct a Title Search of the properties shown hereon. Consequently, PNM and NMGC do not waive or release any easement or easement rights which may have been granted by prior plat, replat or other document and which are not shown on this plat.

PRIVATE CLUSTER DEVELOPMENT AREA NOTES:

1. THE CLUSTER DEVELOPMENT CONSISTS OF LOTS 1 THROUGH 7, TRACT A, B AND C AND ARE SUBJECT TO THE CINNAMON MORNING "PRIVATE" CLUSTER DEVELOPMENT RESTRICTIONS RECORDED CONTEMPORANEOUSLY WITH THIS PLAT.
2. TRACTS A AND C OPEN SPACE AREAS SHALL BE DEVELOPED AS SHOWN ON THE APPROVED SITE DEVELOPMENT AND LANDSCAPE PLAN.
3. TRACT A, B AND C SHALL BE DEEDED TO THE HOME OWNERS ASSOCIATION (H.O.A.) AND SHALL BE ENCUMBERED WITH A BLANKET DRAINAGE EASEMENT FOR THE BENEFIT OF THE CLUSTER DEVELOPMENT RESIDENCES.
4. THE GENERAL USE FOR RECREATIONAL PURPOSES AND ACCESS TO TRACTS A AND C MAY BE RESTRICTED TO THE RESIDENCES OF THE CLUSTER DEVELOPMENT AND MAY BE FENCED SO LONG AS THE PUBLIC VIEW IS NOT SIGNIFICANTLY DIMINISHED.
5. THE H.O.A SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF TRACTS A, B AND C.
6. WITH THIS PLAT, A PUBLIC WATER AND SANITARY SEWER EASEMENT ARE GRANTED TO THE WATER AUTHORITY ON TRACT B.
7. WITH THIS PLAT, A PUBLIC EMERGENCY ACCESS EASEMENT IS GRANTED TO THE CITY OF ALBUQUERQUE ON TRACT B.
8. FOR FIRE DEPARTMENT PURPOSES, THE MINIMUM F-F CURB RETURN RADIUS ON THE TURN AROUND ACCESS EASEMENT SHALL BE 28 FEET.

Section 4. EASEMENT LANGUAGE FOR SUBDIVISION PLAT

A. Drainage Facilities and/or Detention Areas Maintained by Lot Owner

Areas designated on the accompanying plat as "drainage easements" ["detention areas"] are hereby dedicated by the owner as a perpetual easement for the common use and benefit of the various lots within the subdivisions for the purpose of permitting the conveyance of storm water runoff and the constructing* and maintaining of drainage facilities [storm water detention facilities] in accordance with standards prescribed by the City of Albuquerque.** No fence, wall, planting, building or other obstruction may be placed or maintained in easement area without approval of the City Engineer of the City of Albuquerque. There also shall be no alteration of the grades or contours in said easement area without the approval of the City Engineer. It shall be the duty of the lot owners of this subdivision to maintain said drainage easement [detention area] and facilities at their cost in accordance with standards prescribed by the City of Albuquerque. The City shall have the right to enter periodically to inspect the facilities. In the event said lot owners fail to adequately and properly maintain drainage easement [detention area] and facilities, at any time following fifteen (15) days written notice to said lot owners, the City may enter upon said area, perform said maintenance, and the cost of performing said maintenance shall be paid by applicable lot owners proportionately on the basis of lot ownership. In the event lot owners fail to pay the cost of maintenance within thirty (30) days after demand for payment made by the City, the City may file a lien against all lots in the subdivision for which proportionate payment has not been made. The obligations imposed herein shall be binding upon the owner, his heirs, and assigns and shall run with all lots within this subdivision.

The Grantor agrees to defend, indemnify, and hold harmless, the City, its officials, agents and employees from and against any and all claims, actions, suits, or proceedings of any kind brought against said parties for or on account of any matter arising from the drainage facility provided for herein or the Grantor's failure to construct, maintain, or modify said drainage facility.

---

*This assumes owner's promise to construct will be imposed by separate Subdivision Improvements Agreement.

**[Possible alternative:] Grantor shall construct drainage [detention] facilities in the easement in accordance with standards prescribed by the City and plans and specifications approved by the City Engineer in accordance with the drainage report entitled _____, submitted by _____ on,_____ and approved by the Albuquerque City Engineer on _____, together with the amendments approved on _____, which report and amendments are on file in the office of the City Engineer.

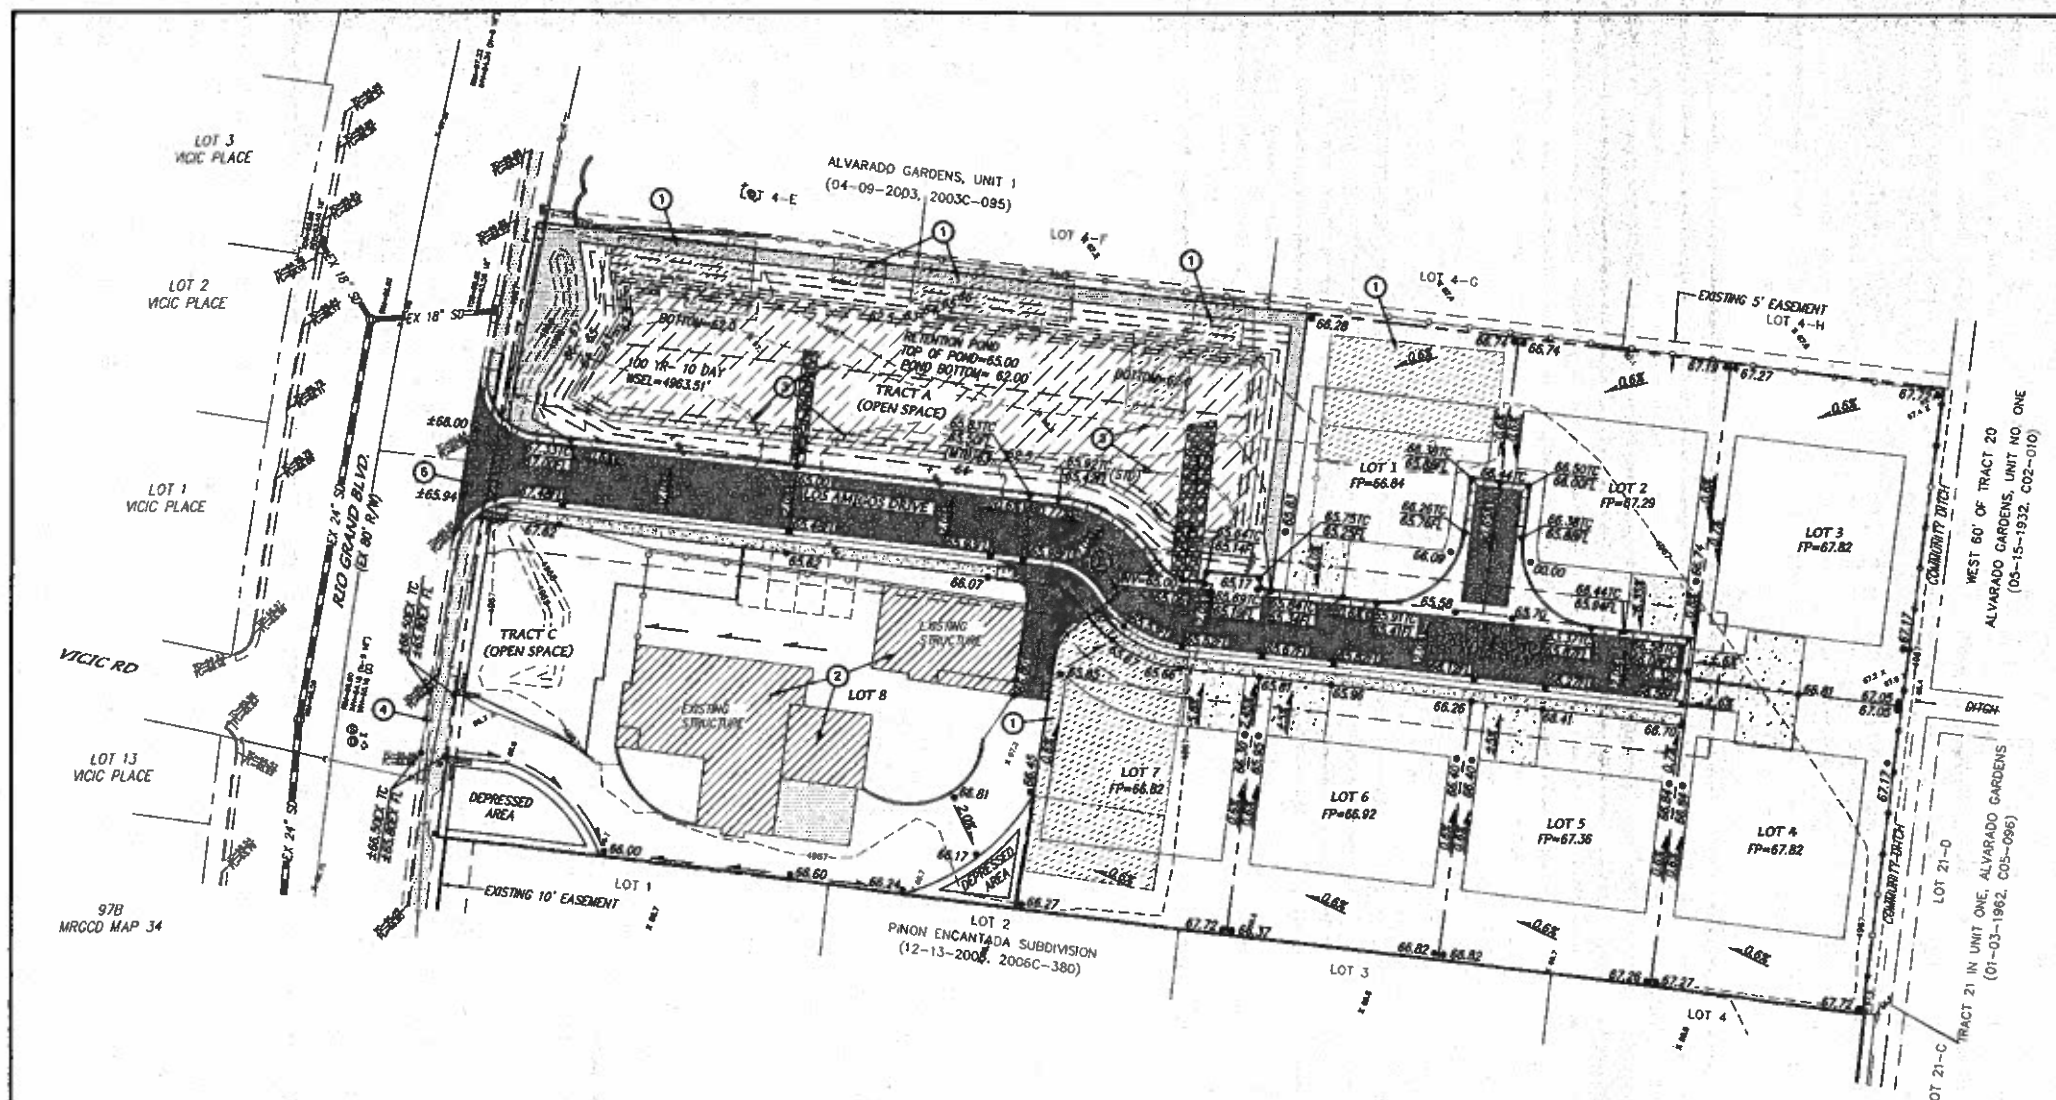
B. Dedication of Drainage Easements: City Constructs and Maintains

A perpetual easement on the areas designated on this plat as "drainage easement" ["detention area"] is hereby dedicated to the City of Albuquerque for the purpose of permitting the conveyance of storm water runoff and for the purpose of constructing, maintaining, operating, removing, and replacing storm water drainage facilities ["detention facilities"]. No fence, wall, planting, building, or other obstruction may be placed or maintained in said easement area and there shall be no alteration of the grades or contours in said dedicated area without the approval of the City Engineer of the City of Albuquerque. No obstructions may be placed in easement area which would prevent ingress and egress to same by maintenance vehicles or which would prevent vehicles traveling on drainage way for maintenance purposes.

---

*The City could require dedication of this property in fee simple since the City here will be responsible for construction and maintenance. The beginning of the first sentence could read: "the areas designated on this plat as 'drainage facilities' are hereby dedicated to the City of Albuquerque in fee simple for the purpose of _____." We might then add: "the City may use the property hereby dedicated for other public purposes."

Drainage Esmt language for Final Plat



VICINITY MAP (NTS) ZONE ATLAS: G-12-Z & G-13-Z

LEGAL DESCRIPTION

A TRACT OF LAND SITUATE WITHIN PROJECT SECTION 1 & 6, TOWNSHIP 10 NORTH, RANGE 2 & 3 EAST, NEW MEXICO PRINCIPAL MERIDIAN, CITY OF ALBUQUERQUE, BERNALILLO COUNTY, NEW MEXICO BEING ALL OF LOT 3A, ALVARADO GARDENS AS SHOWN AND DESIGNATED ON SAID PLAT FILED FOR RECORD IN THE OFFICE OF THE COUNTY CLERK OF BERNALILLO COUNTY, NEW MEXICO AND CONTAINS 2.617 ACRES MORE OR LESS.

NOTES

1. CONTRACTOR MUST OBTAIN A TOPSOIL DISTURBANCE PERMIT FROM THE ENVIRONMENTAL HEALTH DIVISION PRIOR TO CONSTRUCTION.
2. CITY OF ALBUQUERQUE STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, LATEST EDITION SHALL GOVERN ALL WORK.
3. THE CONTRACTOR SHALL CONFORM TO ALL CITY, COUNTY, STATE AND FEDERAL DUST CONTROL MEASURES AND REQUIREMENTS AND WILL BE RESPONSIBLE FOR PREPARING AND OBTAINING ALL NECESSARY APPLICATIONS AND APPROVALS.
4. THE CONTRACTOR SHALL ENSURE THAT NO SOIL ERODES FROM THE LOTS INTO PUBLIC RIGHT-OF-WAY. THIS CAN BE ACHIEVED BY CONSTRUCTING TEMPORARY BERMS AND WETTING THE SOIL TO KEEP IT FROM BLOWING.
5. THE EARTHWORK CONTRACTOR SHALL STOCKPILE ENOUGH MATERIAL ADJACENT TO RETAINING WALL LOCATIONS TO BE UTILIZED FOR WALL BACKFILL.
6. SITE DOES NOT LIE IN A 100 YEAR FLOOD ZONE.
7. ALL SITE WALLS SHALL CONFORM TO THE GENERAL HEIGHT AND DESIGN REGULATIONS CONTAINED IN SECTION 14-16-3-19 OF THE CITY ZONING CODE.

GRADING AND DRAINAGE PLAN

EXISTING CONDITIONS – PROJECT SITE IS BASICALLY FLAT. RAINFALL ON THE SITE REMAINS ON THE SITE. NO OFFSITE RUNOFF ENTERS THE SITE FROM ANY DIRECTION. THERE ARE A COUPLE OF DEPRESSION AREAS ON SITE THAT COLLECT RUNOFF FROM THE SITE.

PROPOSED CONDITIONS – RUNOFF FROM EACH OF THE 7 LOTS IN THE CLUSTER DEVELOPMENT WILL FLOW TO THE STREET AND BE CONVEYED AS SURFACE STREET RUNOFF TO THE OPEN SPACE RETENTION POND ON TRACT A. THE RETENTION POND IS DESIGNED FOR THE 100 YEAR-10 DAY STORM VOLUME WHICH IS 15,345 CU.FT. THE MAXIMUM WATER SURFACE ELEVATION AT THIS VOLUME IS 4966.0 FEET.

LANDSCAPE BUFFER NOTES:

1. FINAL GRADE OF DIRT TO BE 1 TO 2 INCHES BELOW TOP OF CURB AND TOP OF SIDEWALK GRADE.
2. SURFACE BETWEEN BACK OF CURB AND SIDEWALK TO BE COVERED WITH GRAVEL MULCH (MINIMUM 3/4") OR LANDSCAPE COBBLES. DO NOT FILL ENTIRE SWALE.
3. LANDSCAPE FABRIC IS RECOMMENDED, BUT NOT REQUIRED, BETWEEN THE DIRT AND THE STONE. IF LANDSCAPE FABRIC IS TO BE USED IT IS TO BE PERMEABLE.

GENERAL NOTES:

1. Cinnamon Morning Private Cluster Development shall be consistent with the City of Albuquerque IDO Cluster Development (CD) allowed in the RA Zone per the Zoning Code, Section 14-16-4-3-(B)(2).
2. The number of lots allowed in the CD is determined by dividing the site area by the minimum lot size permitted in the underlying zone and rounded to the nearest whole number. This property is zoned R-A, with a minimum size of 10,890 SF per lot. The gross site area of the site is 109,348.67 SF (2.5103 acres). The portion of the site that will consist of the private cluster development is 1.8996 acres (82,757.2 SF) The number of lots allowed at Cinnamon Morning Cluster Development are as follows:

   82,757.2 / 10,890 = 7.6 Lots

   The number Lots proposed for Cinnamon Morning Cluster Development is 7.
3. All lots in Cinnamon Morning Cluster Development shall be developed for single-family detached dwelling units. The minimum setbacks for the CD are as follows:

   Front: 15 feet, as measured from Tract B (private road), except driveways shall not be less than 20 linear feet.
   Rear: 25 feet
   Side: 10 feet between building structure, or 5' to property line (typical).
4. The cluster development project site shall include a common open space set aside for agriculture landscaping, on-site ponding,outdoor recreation, or any other combination thereof allowed in the zone district, and for the use and enjoyment of the HOA residents.
5. The common open space area shall be 30 percent of the gross area of the cluster development project site or 100 percent of the area gained through lots size reduction, whichever is greater. The two methods for calculating the minimum provide open space area is found in the adjacent table, this sheet.
6. The minimum private common open space area required is 24,804.6 SF. The private common open space provided is 24,811 SF (Tract A and C).
7. The common open space may be walled or fenced but shall be partially visible from Rio Grande Blvd. public right of way through openings in, and/or with trees visible above the wall or fence.
8. Maintenance of the common open space area shall be the responsibility of the cluster development Homeowners Association. Tract A and C will be dedicated to the H.O.A.
9. The cluster development site's common open space area is set aside for agriculture, landscaping, on-site ponding, outdoor recreation, or possible combination of one or more.
10. If the responsible property owners (H.O.A.) fail or refuse to act on maintenance obligations as set forth in the land use assement, the City of Albuquerque shall have the authority to perform suc maintenance as necessary to protect public health and safety. Under no circumstance will the City maintain the private cluster open space area for a period longer than one (1) year. The cost of such maintenance shall be assessed against the properties within Cinnamon Morning Cluster Development. Failure to pay assessed charges may result in a municipal lien against each of the individual lots at Cinnamon Morning Cluster Development. Under no circumstances will the City maintain recreational uses.
11. The fencing along the west property line between open space Tracts A & C and Rio Grande Blvd. shall maintain public view of open space and may not exceed 3.0 feet height in a non transparent wall. Additional walls along north, east and south property lines shall not exceed 8 feet in height per IDO Table 5-7-1 (Section 14-16-5).
12. Storm water runoff from the cluster development shall be conveyed to the private Tract A through surface drainage.
13. There shall be no sidewalk provided along the north side of Los Amigos Drive or Lane. A sidewalk waiver shall be required and approved by the Development Review Board (DRB).
14. Onsite pavement will consist of 3" A.C. over 12" subgrade preparation.
15. This project will be constructed in one phase.

				Acreage	1.898
				30% of total	24804.6

Open Space Rule for Cluster Development 14-16-4-3-B(2)(d)1:

The Common open space area shall be 30% of the gross area of the project site or 100% of the area gained through lot size reductions, whichever is greater (=24,805 SF).

GENERAL NOTES (cont.):

18. IRRIGATION FACILITY (ACEQUIA) STANDARDS:
    5-2(F)(1) All subdivisions and site development shall comply with applicable requirements of Article 14-5 of ROA 1994 and the DPM.
    5-2(F)(2) These standards apply to development adjacent to all irrigation facilities owned or maintained by the Middle Rio Grande Conservancy District (MRGCD) or community acequia associations.
    5-2(F)(3) No primary or accessory structure, wall, fence, or impervious surface shall be constructed within 5 feet of the toe of the slope of an irrigation facility or of the associated easement boundary, whichever is greater, without the approval of the authority or association with operations and maintenance responsibility for the irrigation facility, except as noted in Subsection (a) below (applies to the Durenes area west of Rio Grande Blvd.)
    5-2(F)(4) No vegetation within 5 feet of the toe of the slope of an irrigation facility shall be removed, treated, or planted without coordination with the authority or association responsible for operating and maintaining the irrigation facility.
17. A Knox box shall be provided at the private access gate for use by the Fire Department.

APPLICATION NUMBER: PR-2019-002044
PROJECT NUMBER: SD-2019-00030

THIS PLAN IS CONSISTENT WITH THE SPECIFIC SITE DEVELOPMENT PLAN APPROVED BY THE DEVELOPMENT REVIEW BOARD (DRB), DATED 11-30-18, AND THE FINDINGS AND CONDITIONS IN THE OFFICIAL NOTIFICATION OF DECISION ARE SATISFIED.

IS AN INFRASTRUCTURE LIST REQUIRED? ( ) YES ( ) NO IF YES, THEN SET OF APPROVED DRC PLANS WITH A WORK ORDER IS REQUIRED FOR ANY CONSTRUCTION WITHIN PUBLIC RIGHT-OF-WAY OR FOR CONSTRUCTION OF PUBLIC IMPROVEMENTS.

VICINITY MAP (NTS) ZONE ATLAS: G-12-Z & G-13-Z

LEGAL DESCRIPTION

A TRACT OF LAND SITUATE WITHIN PROJECT SECTION 1 & 6, TOWNSHIP 10 NORTH, RANGE 2 & 3 EAST, NEW MEXICO PRINCIPAL MERIDIAN, CITY OF ALBUQUERQUE, BERNALILLO COUNTY, NEW MEXICO BEING ALL OF LOT 3A, ALVARADO GARDENS AS SHOWN AND DESIGNATED ON SAID PLAT FILED FOR RECORD IN THE OFFICE OF THE COUNTY CLERK OF BERNALILLO COUNTY, NEW MEXICO AND CONTAINS 2.617 ACRES MORE OR LESS.

NOTES

1. CONTRACTOR MUST OBTAIN A TOPSOIL DISTURBANCE PERMIT FROM THE ENVIRONMENTAL HEALTH DIVISION PRIOR TO CONSTRUCTION.
2. CITY OF ALBUQUERQUE STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, LATEST EDITION SHALL GOVERN ALL WORK.
3. THE CONTRACTOR SHALL CONFORM TO ALL CITY, COUNTY, STATE AND FEDERAL DUST CONTROL MEASURES AND REQUIREMENTS AND WILL BE RESPONSIBLE FOR PREPARING AND OBTAINING ALL NECESSARY APPLICATIONS AND APPROVALS.
4. THE CONTRACTOR SHALL ENSURE THAT NO SOIL ERODES FROM THE LOTS INTO PUBLIC RIGHT-OF-WAY. THIS CAN BE ACHIEVED BY CONSTRUCTING TEMPORARY BERMS AND WETTING THE SOIL TO KEEP IT FROM BLOWING.
5. THE EARTHWORK CONTRACTOR SHALL STOCKPILE ENOUGH MATERIAL ADJACENT TO RETAINING WALL LOCATIONS TO BE UTILIZED FOR WALL BACKFILL.
6. SITE DOES NOT LIE IN A 100 YEAR FLOOD ZONE.
7. ALL SITE WALLS SHALL CONFORM TO THE GENERAL HEIGHT AND DESIGN REGULATIONS CONTAINED IN SECTION 14-16-3-19 OF THE CITY ZONING CODE.

GRADING AND DRAINAGE PLAN

EXISTING CONDITIONS - PROJECT SITE IS BASICALLY FLAT. RAINFALL ON THE SITE REMAINS ON THE SITE. NO OFFSITE RUNOFF ENTERS THE SITE FROM ANY DIRECTION. THERE ARE A COUPLE OF DEPRESSION AREAS ON SITE THAT COLLECT RUNOFF FROM THE SITE.

PROPOSED CONDITIONS - RUNOFF FROM EACH OF THE 7 LOTS IN THE CLUSTER DEVELOPMENT WILL FLOW TO THE STREET AND BE CONVEYED AS SURFACE STREET RUNOFF TO THE OPEN SPACE RETENTION POND ON TRACT A. THE RETENTION POND IS DESIGNED FOR THE 100 YEAR-10 DAY STORM VOLUME WHICH IS 13,345 CU.FT. THE MAXIMUM WATER SURFACE ELEVATION AT THIS VOLUME IS 4966.0 FEET.

LANDSCAPE BUFFER NOTES:

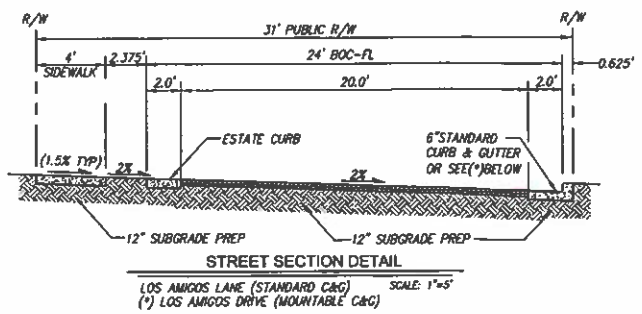
1. FINAL GRADE OF DIRT TO BE 1 TO 2 INCHES BELOW TOP OF CURB AND TOP OF SIDEWALK GRADE.
2. SURFACE BETWEEN BACK OF CURB AND SIDEWALK TO BE COVERED WITH GRAVEL MULCH (MINIMUM 3/4") OR LANDSCAPE COBBLES. DO NOT FILL ENTIRE SWALE.
3. LANDSCAPE FABRIC IS RECOMMENDED, BUT NOT REQUIRED, BETWEEN THE DIRT AND THE STONE. IF LANDSCAPE FABRIC IS TO BE USED IT IS TO BE PERMEABLE.

KEYED NOTES:

1. EXISTING STRUCTURE TO BE REMOVED & DISPOSED
2. EXISTING STRUCTURE TO REMAIN
3. EXISTING PAVEMENT TO BE REMOVED & DISPOSED
4. EXISTING DRIVE PAD TO REMAIN
5. EXISTING DRIVE PAD TO BE REMOVED & DISPOSED
6. NEW ACCESS GATE FOR PRIVATE ROADWAY

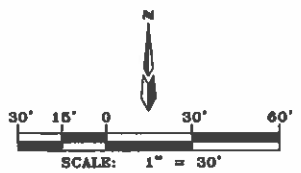
LEGEND

- EXISTING CONTOUR (MINOR)
- EXISTING CURB AND GUTTER
- EXISTING CONCRETE
- EXISTING WALL
- EXISTING FENCE - IRON PIPE/CHAIN LINK
- EXISTING TOP CURB/FLOW LINE
- EXISTING SPOT ELEVATION
- EXISTING SANITARY SEWER MANHOLE
- EXISTING SANITARY SEWER CLEANOUT
- EXISTING STORM DRAIN MANHOLE
- EXISTING CATCH BASIN/DROP INLET
- EXISTING OVERHEAD ELECTRIC/UTILITY LINE
- EXISTING POLE
- EXISTING ANCHOR
- EXISTING ELECTRIC TRANSFORMER/PEDESTAL
- EXISTING WATER VALVE
- EXISTING FIRE HYDRANT
- EXISTING WATER METER
- EXISTING SIGN
- EXISTING BOLLARD
- EXISTING TELEPHONE/FIBER OPTIC PEDESTAL
- NEW ESTATE/MOUNTABLE CURB & GUTTER
- NEW 6" STANDARD CURB & GUTTER
- NEW LOT/PROPERTYLINE
- NEW SIDEWALK
- NEW FLOW DIRECTION ARROW
- NEW SLOPE
- NEW SPOT ELEVATION
- NEW TOP OF CURB ELEVATION / NEW FLOWLINE ELEVATION
- NEW FINISHED FLOOR ELEVATION
- NEW PAVEMENT
- EXISTING BUILDING TO REMAIN
- EXISTING BUILDING (REMOVE & DISPOSE)
- WATERBLOCK
- WSEL FOR 100 YR-10 DAY STORM (4963.51')



STREET SECTION DETAIL

LOS AMIGOS LANE (STANDARD C&G) SCALE: 1"=5'
(*) LOS AMIGOS DRIVE (MOUNTABLE C&G)



BENCH MARKS

AGRS Brass Cap stamped "3-012"
From the intersection of I-40 and Rio Grande Boulevard NW, travel north on Rio Grande Boulevard 0.8 miles to the intersection with Matthew Ave. and the station on the left.

Geographic Position, in feet (NAD83)
N.M. State Plane Coordinates (Central Zone)
Elevation, in feet (NAVD88) = 4965.946

GENERAL NOTES:

1. Cinnamon Morning Private Cluster Development shall be consistent with the City of Albuquerque IDO Cluster Development (CD) allowed in the RA Zone per the Zoning Code, Section 14-16-4-3-(B)(2).
2. The number of lots allowed in the CD is determined by dividing the site area by the minimum lot size permitted in the underlying zone and rounded to the nearest whole number. This property is zoned R-A, with a minimum size of 10,890 SF per lot. The gross site area of the site is 109,348.67 SF (2.5103 acres). The portion of the site that will consist of the private cluster development is 1.8998 acres (82,757.2 SF) The number of lots allowed at Cinnamon Morning Cluster Development are as follows:

   82,757.2 / 10,890 = 7.6 Lots

   The number Lots proposed for Cinnamon Morning Cluster Development is 7.
3. All lots in Cinnamon Morning Cluster Development shall be developed for single-family detached dwelling units. The minimum setbacks for the CD are as follows:

   Front: 15 feet, as measured from Tract B (private road), except driveways shall not be less than 20 linear feet.
   Rear: 25 feet
   Side: 10 feet between building structure, or 5' to property line (typical).
4. The cluster development project site shall include a common open space set aside for agriculture landscaping, on-site ponding,outdoor recreation, or any other combination thereof allowed in the zone district, and for the use and enjoyment of the HOA residents.
5. The common open space area shall be 30 percent of the gross area of the cluster development project site or 100 percent of the area gained through lots size reduction, whichever is greater. The two methods for calculating the minimum provide open space area is found in the adjacent table, this sheet.
6. The minimum private common open space area required is 24,804.6 SF. The private common open space provided is 24,811 SF (Tract A and C).
7. The common open space may be walled or fenced but shall be partially visible from Rio Grande Blvd. public right of way through openings in, and/or with trees visible above the wall or fence.
8. Maintenance of the common open space area shall be the responsibility of the cluster development Homeowners Association. Tract A and C will be dedicated to the H.O.A.
9. The cluster development site's common open space area is set aside for agriculture, landscaping, on-site ponding, outdoor recreation, or possible combination of one or more.
10. If the responsible property owners (H.O.A.) fail or refuse to act on maintenance obligations as set forth in the land use easement, the City of Albuquerque shall have the authority to perform suc maintenance as necessary to protect public health and safety. Under no circumstance will the City maintain the private cluster open space area for a period longer than one (1) year. The cost of such maintenance shall be assessed against the properties within Cinnamon Morning Cluster Development. Failure to pay assessed charges may result in a municipal lien against each of the individual lots at Cinnamon Morning Cluster Development. Under no circumstances will the City maintain recreational uses.
11. The fencing along the west property line between open space Tracts A & C and Rio Grande Blvd. shall maintain public view of open space and may not exceed 3.0 feet height in a non transparent wall. Walls along north, east and south property lines shall not exceed 6 feet in height per IDO Table 5-7-1 Section14-16-5). Refer to detail for coyote fence long north and east property boundary. Some areas along the north property line have either an existing CMU/stucco wall or existing coyote fence. In these areas a new coyote fence shall not be necessary to be constructed. The south property boundary already has an existing CMU wall that shall remain.
12. Storm water runoff from the cluster development shall be conveyed to the private Tract A through surface drainage.
13. There shall be no sidewalk provided along the north side of Los Amigos Drive or Lane. A sidewalk waiver shall be required and approved by the Development Review Board (DRB).
14. Onsite pavement will consist of 3" A.C. over 12" subgrade preparation.
15. This project will be constructed in one phase.

Open Space Rule for Cluster Development 14-16-4-3-B(2)(d)1:

The Common open space area shall be 30% of the gross area of the project site or 100% of the area gained through lot size reductions, whichever is greater (=24,805 SF).

GENERAL NOTES (cont.):

16. IRRIGATION FACILITY (ACEQUIA) STANDARDS:
    5-2(F)(1) All subdivisions and site development shall comply with applicable requirements of Article 14-5 of ROA 1994 and the DPM.
    5-2(F)(2) These standards apply to development adjacent to all irrigation facilities owned or maintained by the Middle Rio Grande Conservancy District (MRGCD) or community acequia associations.
    5-2(F)(3) No primary or accessory structure, wall, fence, or impervious surface shall be constructed within 5 feet of the toe of the slope of an irrigation facility or of the associated easement boundary, whichever is greater, without the approval of the authority or association with operations and maintenance responsibility for the irrigation facility, except as noted in Subsection (a) below (applies to the Duranes area west of Rio Grande Blvd.)
    5-2(F)(4) No vegetation within 5 feet of the toe of the slope of an irrigation facility shall be removed, treated, or planted without coordination with the authority or association responsible for operating and maintaining the irrigation facility.
17. A Knox box shall be provided at the private access gate for use by the Fire Department.

VICINITY MAP (NTS) ZONE ATLAS: G-12-Z & G-13-Z

LEGAL DESCRIPTION

A TRACT OF LAND SITUATE WITHIN PROJECT SECTION 1 & 6, TOWNSHIP 10 NORTH, RANGE 2 & 3 EAST, NEW MEXICO PRINCIPAL MERIDIAN, CITY OF ALBUQUERQUE, BERNALILLO COUNTY, NEW MEXICO BEING ALL OF LOT 3A, ALVARADO GARDENS AS SHOWN AND DESIGNATED ON SAID PLAT FILED FOR RECORD IN THE OFFICE OF THE COUNTY CLERK OF BERNALILLO COUNTY, NEW MEXICO AND CONTAINS 2.617 ACRES MORE OR LESS.

NOTES

1. *CONTRACTOR MUST OBTAIN A TOPSOIL DISTURBANCE PERMIT FROM THE ENVIRONMENTAL HEALTH DIVISION PRIOR TO CONSTRUCTION.*
2. *CITY OF ALBUQUERQUE STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, LATEST EDITION SHALL GOVERN ALL WORK.*
3. *THE CONTRACTOR SHALL CONFORM TO ALL CITY, COUNTY, STATE AND FEDERAL DUST CONTROL MEASURES AND REQUIREMENTS AND WILL BE RESPONSIBLE FOR PREPARING AND OBTAINING ALL NECESSARY APPLICATIONS AND APPROVALS.*
4. *THE CONTRACTOR SHALL ENSURE THAT NO SOIL ERODES FROM THE LOTS INTO PUBLIC RIGHT-OF-WAY. THIS CAN BE ACHIEVED BY CONSTRUCTING TEMPORARY BERMS AND WETTING THE SOIL TO KEEP IT FROM BLOWING.*
5. *THE EARTHWORK CONTRACTOR SHALL STOCKPILE ENOUGH MATERIAL ADJACENT TO RETAINING WALL LOCATIONS TO BE UTILIZED FOR WALL BACKFILL.*
6. *SITE DOES NOT LIE IN A 100 YEAR FLOOD ZONE.*
7. *ALL SITE WALLS SHALL CONFORM TO THE GENERAL HEIGHT AND DESIGN REGULATIONS CONTAINED IN SECTION 14-16-3-19 OF THE CITY ZONING CODE.*

PERIMETER WALL NOTES

ANY FENCING ALONG THE WEST PROPERTY BOUNDARY (ADJACENT TO RIO GRANDE BLVD.) SHALL MAINTAIN PUBLIC VIEW AND ANY NON-TRANSPARENT WALL CONSTRUCTED SHALL NOT EXCEED 3 FEET IN HEIGHT. WALLS ALONG THE NORTH, EAST AND SOUTH PROPERTY LINE MAY NOT EXCEED 6 FEET IN HEIGHT. A COYOTE FENCE SHALL BE CONSTRUCTED ALONG THE NORTH AND EAST PROPERTY LINE AS DETAILED ON THIS SHEET. SOME AREAS ALONG THE NORTH PROPERTY LINE HAVE AN EXISTING COYOTE FENCE AND CMU/STUCCO WALL. THESE AREAS WILL NOT REQUIRE A NEW COYOTE FENCE TO BE CONSTRUCTED. ALONG THE SOUTH PROPERTY BOUNDARY THERE IS AN EXISTING CMU WALL THAT SHALL REMAIN.

GRADING AND DRAINAGE PLAN

EXISTING CONDITIONS - PROJECT SITE IS BASICALLY FLAT. RAINFALL ON THE SITE REMAINS ON THE SITE. NO OFFSITE RUNOFF ENTERS THE SITE FROM ANY DIRECTION. THERE ARE A COUPLE OF DEPRESSION AREAS ON SITE THAT COLLECT RUNOFF FROM THE SITE.

PROPOSED CONDITIONS - RUNOFF FROM EACH OF THE 7 LOTS IN THE CLUSTER DEVELOPMENT WILL FLOW TO THE STREET AND BE CONVEYED AS SURFACE STREET RUNOFF TO THE OPEN SPACE RETENTION POND ON TRACT A. THE RETENTION POND IS DESIGNED FOR THE 100 YEAR-10 DAY STORM VOLUME WHICH IS 15,345 CU.FT. THE MAXIMUM WATER SURFACE ELEVATION AT THIS VOLUME IS 4966.0 FEET.

LANDSCAPE BUFFER NOTES:

1. *FINAL GRADE OF DIRT TO BE 1 TO 2 INCHES BELOW TOP OF CURB AND TOP OF SIDEWALK GRADE.*
2. *SURFACE BETWEEN BACK OF CURB AND SIDEWALK TO BE COVERED WITH GRAVEL MULCH (MINIMUM 3/4") OR LANDSCAPE COBBLES. DO NOT FILL ENTIRE SWALE.*
3. *LANDSCAPE FABRIC IS RECOMMENDED, BUT NOT REQUIRED, BETWEEN THE DIRT AND THE STONE. IF LANDSCAPE FABRIC IS TO BE USED IT IS TO BE PERMEABLE.*
