**Re: Lot 7, Rancho de Candelaria, NW, Albuquerque, NM
(Zone Atlas Map G-13)**

Dear Rudy:

Per our discussion yesterday, I'm providing the following material for
Temporary or Final Certificate of Occupancy approval:

- One (1) drainage information sheet
- One (1) copy of the drainage & grading plan with as-built info and certification language to date.

Please review the attached material for issuance of CO (Temp or Final). As I describe in the certification language, upon completion of the drainage pond wall between lots 6 & 7, I will have a revised certification and record as-builts. Also as I mentioned, the contractor/owner owns both Lots 6 & 7 which will help expedite the construction of the pond wall.

Finally, two 3" diameter holes are being core drilled into bottom of the entry wall to allow drainage from the entry area as discussed. I'll forward the photo's when available.

Please contact me if you have any questions or comments.
Thank you for your help on this.

Sincerely,

GUY JACKSON & ASSOCIATES, LLC
