RE: FIELD INSPECTION FOR ODOR CONTROL STATIONS 4, 19, & 29
(L-14)

Dear Mrs. Couture:

Field inspections have been made of the referenced sites, and I forward the following comments.

Odor Control Station 4

The new structure is less than 500 square feet in area. Therefore, a drainage plan will not be required. The flows from the site need to be directed to 12th Street.

Odor Control Station 19

This site will not need a drainage plan. The site will have minimum impact on downstream facilities. Flows from the site need to be directed to John Street.

Also, off-site flows cannot be blocked but must be conveyed through the property.

Odor Control Station 29

We will require a drainage plan for this site. Downstream capacity is a problem for this site.

Should you have any questions, please feel free to call me at 768-2650.

Cordially,

Carlos A. Montoya, P.E.
City/County Floodplain Administrator
