Re: H09E017G Dirt ramps not being removed by the end of the day

---

Comments: I have been monitoring the dirt ramps on this site for the previous three days. As the photos indicate the same ramps exist and have not been removed as of 7:30 a.m. this morning. The previous arrangement/ understanding is not being honored.

On a positive note I ran across Green Globe this morning and one of the workers stated they are removing the ramps today—for what it is worth.
