RE: GRADING PLAN FOR OLD SILO and D & B GLASS (H-
11/D021A) SUBMITTED FOR PAVING (OVERLAY) PERMIT APPROVAL

Dear Mr. Bennett,

Based upon the information provided in your June 9, 2000, submittal, the project referred to above is approved for paving permit.

Once the construction is complete, an Engineer Certification, per the DPM checklist, will be required.

If you have any questions, please call me at 924-3988.

Sincerely,

Stuart Reeder, P.E.

 DEVELOPMENT REVIEW BOARD (DRB) REQUIRED INFRASTRUCTURE LISTING
 for Randy Stone
West Mesa Mini Storage
Site Development Plan

Following is a summary of Public/Private Infrastructure required to be constructed or financially guaranteed to be constructed for the above development. This summary is not necessarily a complete listing. During the design process if the City determines that appurtenant items have not been included in the summary, those items will be included in the listing and related financial guarantee, if the items normally are the Subdivider responsibility. In addition, any unforeseen items which arise during construction which are necessary to complete the project and which normally are the Subdivider's responsibility are the responsibility of the Subdivider and will be included in the financial guarantee provided to the City.

<u>Size</u>	<u>Type Improve.</u>	<u>Location</u>	<u>From</u>	<u>To</u>

**RE: ENGINEER CERTIFICATION FOR TEMPORARY CERTIFICATE OF
OCCUPANCY @ D & B CLASS CO. (H11-D21A) CERTIFICATION STATEMENT
DATED 8/14/96.**

Dear Mr. Krenik:

Based on the information provided on your August 16, 1996
submittal, Engineer Certification is acceptable only for
Temporary Certificate of Occupancy release.

Please be advised that the final Certificate of Occupancy release
will not be issued until all the work order items have been
completed and an acceptance letter has been issued. The outfall
will need to be in place and certified.

The stamp dated 8/14/86 has been changed to 8/14/96. Please
change on your original.

If I can be of further assistance, please feel free to contact me
at 768-2667.

Sincerely,

Bernie J. Montoya

RE: REVISED DRAINAGE PLAN FOR D & B GLASS (H11-D21A) ENGINEER'S
STAMP DATED 9/15/95.

Dear Mr. Krenik:

Based on the information provided on your September 18, 1995 resubmittal, the above referenced drainage plan is approved for Building Permit.

Please be advised that the down stream drainage facilities within the West Mesa Mini Storage site will need to be in place and functioning prior to release of Certificate of Occupancy.

If for some reason the facilities are not in place, an interim drainage design will need to be submitted for our review.

Also, prior to Certificate of Occupancy release, Engineer Certification per the D.P.M. checklist will be required.

If I can be of further assistance, please feel free to contact me at 768-2667.

Sincerely,

Bernie J. Montoya, CE
Engineering Associate

Re: Drainage Plan for Waffle House-Coors/Ouray (H-11/D21A)

Dear Bernie:

I have received your comments on the above referenced Drainage Plan and have addressed them as follows:

1. The legal description has been revised to reflect the existing plat.
2. The proposed site is consistent with the approved site plan. We do not have a copy available to us since the Planning Department has the only site plan on file.
3. The proposed retention pond is only a interim solution until the future West Bluff Drainage Plan is constructed. When the West Bluff Drainage Plan is constructed the retention pond will be filled with fill material and landscaped to allow runoff to flow overland to the future improvements.
4. The retention pond is a temporary solution until the West Bluff Drainage Plan is constructed. The ponding area will be landscaped.
5. The existing plat provides a drainage easement (Blanket easement) which will also be included in the replat.
6. Based upon a field observation and the review of the existing topography, offsite flows do not enter the project site. The drainage plan has been revised to clarify offsite flows.
7. Yes, I have taken into account for the displacement in volume for the gravel lines, retention pond. Also increased the depth of gravel from 0.5' to 1.0'.
8. The future T.C.'s and F.L.'s have been shown on the attached plan.

RE: DRAINAGE PLAN FOR WAFFLE HOUSE - COOPER/DUPAY
(H-11/021) RECEIVED FEBRUARY 27, 1987

Dear Jeff:

A preliminary review of your submittal for Building Permit approval has shown that the following information is lacking for this section to begin the review process:

INFORMATION NEEDED

1. True legal description (proposed plat has not been finalized).
2. How does your proposed site compare with the site plan? (Please provide copy of approved site plan).
3. Please provide information as to how the proposed retention pond will interphase with the future West Bluff Drainage Plan.
4. No building is allowed closer than 15' from the property line minus the required setback of adjacent property (if plat is approved, you will be within the above constraints).
5. If easements are required for acceptance of any flows across property lines, they should be included on the plat.
6. Off-site flows from the retention pond be addressed. You may need additional parking volume. Although the approved subject address for future storm of the city, it is difficult to calculate the 1' the proposed site will be accepting all the water.
