Reza Afaghpour, PE SBS Construction and Engineering, LLC 10209 Snowflake Ct NW Albuquerque, NM 87114

Re: 2633 Floral Rd. NW Request Permanent C.O. – Approved Engineer's Stamp Date: 10-12-2020 Certification dated: 4-16-2021

Dear Mr. Afaghpour,

Based upon the information provided in your submittal received 4-19-2021 and site visit on 4-22-2021, this plan is approved for Certificate of Occupancy by Hydrology.

PO Box 1293

Albuquerque

Please note that there is still work that needs to be completed onsite. There is a large pile of dirt in the front of the lot that needs to be taken care of, the grades around the ponds need to be cleaned up and the pipe connecting the pond in the back yard to the pond in the SE corner appears to be misaligned. The inlet is on the upside of the slope near the wall and needs to be placed in the bottom of the swale as shown on the plans. Please have the contractor take care of this.

NM 87103

If you have any questions, you can contact me at 924-3986 or earmijo@cabq.gov.

The purpose of this drainage report is to present a grading and drain buildings and improvement for Tract 250A1A, MRGCD #35.	nage solution for new	
Existing Drainage Conditions This lot is very flat and drains south into Floral Road, Ave., NW ar		N 2°36'
enters this site. There are existing block walls all the way around the Proposed Conditions and On-Site Drainage Manage		0
There are existing block walls all three sides of this lot. We are posed developed flow minus the historical flow. The total volume require 2,312.54 CF. We are proposing three ponds with total volume pro	ement under this condition is	×60.35
includes the first flush volume requirement of 260.84 CF.
