Endangered Species Protection Worksheet: Criterion E
Determine ESA Eligibility Criterion
Are your discharges and discharge-related activities already addressed in another operator's valid certification of eligibility for your "action area" under the current 2022 CGP? No
Has consultation between you, a Federal Agency, and the USFWS and/or the NMFS under section 7 of the Endangered Species Act (ESA) concluded? Yes
→ The result of the consultation was:
Option ii. Written concurrence (e.g., letter of concurrence) from the applicable Service(s) with a determination that your site's discharges and discharge-related activities are not likely to adversely affect ESA-listed species and/or designated critical habitat. The concurrence letter must have included the effects of your site's discharges and discharge-related activities on all the ESA-listed species and/or designated critical habitat on your species list(s) acquired from USFWS and/or NMFS as part of this worksheet.
The consultation does not warrant reinitiation under 50 CFR §402.16; or, if reinitiation of consultation is required (e.g., due to a new species listing, critical habitat designation, or new information), the federal action agency has reinitiated the consultation and the result of the consultation is consistent with the statements above. Include any reinitiation documentation from the Services or consulting federal agency
with your NOI.  True
You are eligible under <b>Criterion E</b> .
Identify the federal action agency or agencies involved (i.e. the federal agencies seeking coverage):
Raul Modi (Owner)
Identify the Service(s) field or regional offices providing the consultation:
IPaC USFWS

Identify any tracking numbers associated with the consultation (e.g., IPaC number, ECO number):

Project Code: 2023-0065971

Provide the date the consultation was completed: 2023-04-06

Attach correspondence with USFWS and/or NMFS documenting the Biological Opinion, conference opinion (IPaC or ECO tracking number) or concurrence.
