Under which criterion listed in Appendix D are you eligible for coverage under this permit? C. Federally-listed threatened or endangered species or their designated critical habitat(s) are likely to occur in or near your site's "action area," and your site's discharges and discharge-related activities are not likely to adversely affect listed threatened or endangered species or critical habitat. This determination may include consideration of any stormwater controls and/or management practices you will adopt to ensure that your discharges and discharge-related activities are not likely to adversely affect listed species and critical habitat. To make this certification, you must include the following in your NOI: 1) any federally listed species and/or designated habitat located in your "action area"; and 2) the distance between your site and the listed species or designated critical habitat (in miles). You must also include a copy of your site map with your NOI.

Provide the basis for criterion selection selected: NMED and USFWS Website

- 1) Any federal listed species and/or designated habitat located in your area: Rio Grande River
- 2) The distance between your site and the listed species or designated critical habitat (in miles): ~7 Miles North
